Horses, Drivers Set for Matinee

The Junior Chamber of Commerce Harness Racing Spring Matinee will take place Sunday afternoon starting 1:30 p.m. approximately 39 horses will compete at the Pickaway County fairgrounds track.

The horses competing are all locally trained at the fairgrounds and the majority are owned by county residents. They have been training since fall and Sunday's event is the pre-season opener. The actual racing season opens June 1 at Hilliards.

The two-year-old pace will feature heated competition between such horses as T. D.'s Adios, driven by George Van Camp, Santiago, driven by Forrest Short, and Joey H., to be driven by Clarence Helvering.

In the classified pace, three outstanding horses will compete for the first place blanket. They are Marty's Pilot, with John Martindale up, Jerry H., driven by Helvering, and Kelly McWin, one of the top pace stable horses with Frank Mace up.

Nixon's Ecuador Parley Canceled

QUINTO, Ecuador (AP)—A round-table conference between U.S. Vice President Richard Nixon and Ecuadorian students and labor leaders has been cancelled.

The move came as the result of stones and spit which greeted Nixon at Peru's oldest university Thursday.

And it appeared that the violence might put a stop to Nixon's attempts to convince Latin Americans the U.S. is a better bet than Russia.

Sources close to the vice president said in the three nations remaining on his tour he might abandon his custom of visiting the leading universities to talk with students.

Nixon had been warned that his visit to Lima's San Marcos University might result in leftist-inspired violence but he went ahead. A rock grazed his neck, and a U.S. Secret Service agent had a tooth chipped by a flying stone as students spat on the party and jeered: "Nixon Get Out."

NIXON SHOUTED back: "Don't you want to hear facts?" but the mob shouted him down and he left for Lima's Catholic University to meet with students there.

As Nixon returned to his hotel on foot, another group demonstrated against him.

The outbursts against the vice president shook Lima. The influential newspaper El Comercio

said the police should have taken steps to prevent the outbreaks. Opposition papers already had criticized the government for failing to prevent similar, but milder, anti-Nixon demonstrations the day before.

Nixon made no official fuss but Foreign Minister Raul Porras quickly expressed official and personal apologies.

The government also replaced the wreath Nixon had laid on the monument to South American patriot Jose San Martin, which demonstrators tore up.

Nixon told newsmen he was deeply moved by apologies he received privately from Peruvians. When he left his hotel later, crowds applauded him as if to make amends.

Lima police reportedly got orders to round up Communists responsible for the demonstrations. Informal sources said the nationalistic expelled student (Peru's largest) expelled a student member for joining the mob.

In Washington President Eisenhower said today Peruvian students who stoned and spat upon Nixon will come "to feel a sense of guilt and embarrassment."

In a personal message to Nixon, the President praised him for courage, patience and calmness in dealing with a mob of demonstrators at San Marcos University in Lima.

Eisenhower, in a message addressed to "Dear Dick," said Nixon's handling of the episode has brought him "new respect and admiration in our country."

24 Men Freed Of Mine Trap

West Virginians Spend 16 Hours Underground

SHARPLES, W. Va. (AP)—Twenty-four weary, dirty miners trudged through a long, winding abandoned mine shaft to freedom today after spending more than 16 hours trapped underground.

The miners were all in good physical condition. They joked freely over cups of hot coffee.

The last of the 24 to leave the mine at 5:50 a. m. was Robert Turner, assistant general manager for the Boone County Coal Co., operators of the mine.

Mine officials said the miners had been trapped more than a mile from the entrance of the slope mine which burrows into the side of the mountain. They were believed to have been about 2,000 feet behind debris which clogged the main passage into the mine.

The first report that the trapped men had been reached came from Richard F. Wesner, general manager of the coal firm.

The trapped men were reached by the third team to attempt a rescue through an air shaft leading into old workings located on an opposite side of the flooded passageway.

THE AIR SHAFT leading into the old passageway was discovered by inspectors and mine foremen.

The miners represented the entire working force in the No. 2-A mine at the time.

Mine officials said the cave-in was not uncommon. They said recent heavy rains had added to the small lake pumped into a ravine in the mine's coal-washer.

Sorry Men, But Paradise Is Closed

LOS ANGELES (AP)—Too bad, men, that South Seas paradise where pay is high, food and drinks cheap and women are barred is not for you—this year.

The no-help-wanted sign is up. The enchanted isles are where the United States tests its nuclear devices. The appeal of the islands was told in an Associated Press story earlier this week.

"We've been swamped with phone calls, telegrams and letters since the news got out," said a spokesman for Holmes & Narver, Inc., a Los Angeles engineering firm hired by the Atomic Energy Commission to run the Eniwetok atoll proving ground.

"The only trouble," sighed the spokesman, "is that we don't have any job openings and won't have until next year. We have to say no to all the callers."

Especially intriguing about the island life: \$1.50 a day living expenses, 25-cent drinks and \$10,000 net salaries a year.

The all-male community, 5,100 miles from Los Angeles, has been prospering since 1949.

Swiss Intelligence Agent Gets Sentence

BERN, Switzerland (AP)—A Swiss Federal Court sentenced former Swiss counterintelligence agent Max Ulrich to 2½ years at hard labor today for spying for France.

The maximum sentence in Switzerland's most sensational espionage case since World War II could have been 20 years.

Ulrich admitted during his trial that he provided Col. Marcel Mercier, former chief of French intelligence services in Switzerland, with a constant flow of secret Swiss data on Arab exiles.

Richard K. Snouffer Hired As CHS Basketball Coach

Richard Kendall Snouffer, 27, has been hired as head basketball coach here to replace Richard Boyd who resigned to accept a similar position at Warren High School.

Snouffer, former cage coach at Johnstown, Licking County, is a graduate of Capital University where he starred in basketball. He was a teammate of Boyd at Cap.

Snouffer brings a fine 48-16 record as a coach to Circleville. This figure covers a three-year period at Johnstown, 1954-57. In 1955-56 his Johnstown team won 20 and lost two, going all the way to the district semifinals.

In two of the three years at Johnstown, his teams won the Licking County Tournament. His squad also earned the Mid-Buckeye League title one year.

Snouffer will come to Circleville this summer prior to the starting of the new school year.

Man To Honor 400 Mothers

Pennsylvania Invites All to Sunday Dinner

LANSFORD, Pa. (AP)—There's going to be 30,000 years of motherhood under a single roof at nearby Lehigh Valley Saturday.

The occasion will be the annual Mothers Day party put on by 67-year-old Dick Edwards, a beaming Lansford department store owner who lost his mother in 1934.

"After my mother died, it was a personal loss that made Mothers Day only a cruel reminder to me I decided to do something about it—and now Mothers Day is just about the biggest day in my life," he says.

The "something" he did started in 1939. For Mothers Day that year, he invited 15 women to be his guest at a special dinner. They were all 70 or over.

Each year since he expanded the invitation list until now it will see 400 mothers from the area—all at least 70 and one who is 93—gather at his Mothers Day dining table.

The average age is 75 and the total is 30,000 years.

Edwards, a stocky Welsh immigrant, is fond of the television program, "This is Your Life," and that's the theme he has taken for the Mothers Day get-togethers in recent years.

Saturday, he plans to reunite a local woman with a close relative from England—a person she hasn't seen for 30 years.

This same type of surprise reunion brought together an Austrian woman and her Bowmanstown mother for the first time since 1932.

Ike's Civilian Space Agency Facing Change

WASHINGTON (AP)—President Eisenhower's proposal for a civilian space agency today faced probable overhaul to make sure it does not encroach on military projects.

Key members of the Senate Space Committee indicated this after hearing spokesmen for the Navy, Army and Air Force voice misgivings that the Eisenhower proposal, as now worded, might threaten control of space projects related to defense.

Their testimony was reinforced by Secretary of Defense McElroy, who told a Pentagon news conference that "the military aspect of space research should continue to have funding and direction from the Department of Defense."

Garrison Norton, assistant secretary of the Navy for air, testified the bill, as it now stands, would permit some future president or civilian space agency boss "to simply take over everything that's from one inch above the ground on up—all airborne travel as well as space travel."

Secretary of the Army Wilber M. Brucker and Malcolm A. MacIntyre, undersecretary of the Air Force, also said some clarification is needed.

MOBILE, Ala. (AP)—A man who said he once handled wild animals in South America patted a caged lion once Thursday. The second time he tried it he suffered a fractured right arm and deep scratches.

'Buy Now' Parade Set for Tonight

Circleville's "You Auto Buy Now" campaign swings into full force tonight with a parade through the downtown area.

Starting at 7:30 p. m., the parade will go from E. Main St., south on Pickaway St. to Franklin west on Franklin St. to Court St., north on Court St. to Main St., west on Main St. to Scioto St., north on Scioto St. to Pinckney St., east on Pinckney St. to Court St., south on Court St. to Main St., and thence east on Main St. to Pickaway St.

In the parade will be the American Legion Drum & Bugle Corps, a unit of the National Guard and several comedy acts, along with about three different models of each make automobile sold by members of the Circleville New Car Dealers Assn.

Today the nine association members were paying their employees in silver dollars to illustrate to Circleville residents the amount of wealth poured into the community by the auto dealers.

Members of the association are Yates Buick, Circleville Motors, Pickaway Motors, Flanagan Motors, Joe Moats, Ed Helwagen, Harden Chevrolet, Wes Edstrom and Clifton Motor Sales.

THE "BUY NOW" drive was sparked by two Cleveland auto dealers about six weeks ago and has spread throughout the country. The move was praised by President Eisenhower who said he believed it would help the American economy.

Backing the movement locally are the new car dealers, the Circleville Area Chamber of Commerce, Pickaway County banks and financial institutions, Pickaway County Insurance Agents Assn. and The Circleville Herald.

Aim of the drive is to promote sales now. Financial institutions all agree that most persons have money available to spend but are holding it closely. They agree that there is unemployment, but that spending now will put most unemployed back to work soon.

Heading up the "You Auto Buy

Now" drive here is the car dealers advertising committee, Ned Harden, Adrian Yates and Jack Clifton. Bonner Ezell is president of the association.

A list of car buyers will be published each day in The Herald during the week-long campaign to show that local persons are doing their part in bolstering the economy.

Car purchasers will be asked for permission to use their names in the paper as helping Circleville and Pickaway County to stay in good financial condition.

Noble Advises Route 23 Sign

Charles Noble, head of Ohio highway work, said today that the State Highway Department probably should erect some sort of sign south of Circleville on Route 23, indicating to motorists that they are approaching the city.

Noble and Frank M. Williams, deputy director of Division 6, Ohio Highway Department, visited The Circleville Herald today. Noble and Williams said they were traveling through the area talking to residents and checking highway conditions.

Labor Fuss Shuts Ohio River Plant

NEW MARTINSVILLE, W. Va. (AP)—Officials of the multi-million dollar Mobay Chemical Co. plant north of this Ohio River community say the plant has closed because of difficulties with the local Chemical Workers Union.

Negotiations between management and Local 566 of the International Chemical Workers Union, AFL-CIO, collapsed Thursday. Talks between the company and the 120-member chemical union had begun about six weeks ago.

Donald J. Miller, plant manager, said he did not know how long the closure would last.

Teacher Says Politicians To Blame for Sputnik Lead

COLUMBUS, Ohio (AP)—Who is responsible for Russia's Sputnik leadership?

Politicians, not educators, declares an official of the Ohio Federation of Teachers.

Raymond Peck, a Columbus junior high school teacher and state secretary - treasurer of the teachers' federation, spoke at a state convention of the federation here today. He said:

"American politicians who, right or wrong, were responsible for the U.S. slow-down in rocket experimentation, feared voter retaliation. They looked for a scapegoat on which to shift the responsibility—and there was education."

Peck said once the U.S. shifted

into high gear, after the first Russian Sputnik, two of our Armed Services had satellites in orbit within two months. Scientists and engineers who did it, Peck said,

"were educated and trained by the same schools that are now being criticized."

Peck conceded schools do need improvement. Among trouble spots he listed the lack of agreement on what is or should be taught, oversized classes, low teacher salaries and poor working conditions and teacher assignments to clerical and non-teaching duties.

The AFL-CIO Teachers' group was told the needs include special

Commerce Aide Given Proposal

Business Advisory Council Offers Plan

HOT SPRINGS, Va. (AP)—A special committee of the Business Advisory Council proposed today that President Eisenhower call a voluntary one-year moratorium on wage and price increases.

The report was presented to Secretary of Commerce Weeks and to more than 100 top U.S. industrialists attending the Council's closed sessions here. The Council is an advisory body to the Commerce Department.

The committee recommended against any general tax reduction at this time. It said such action may be proper if general consumption continues to decline. The group strongly opposed federal projects of the type called "make work."

The special committee was formed at Weeks' request. It was headed by T. V. Houser, chairman of Sears, Roebuck and Co., who presented the findings to the council.

TO AVOID further lowering of public purchasing power and possibly to encourage price reduction, the committee said Eisenhower should issue a call for a moratorium on further wage rate increases by labor and on corresponding price increases by business.

Council members head reports that the administration is considering another anti-recession measure—a request to Congress to liberalize tax write-offs for all industry.

A government source reported privately the plan is getting serious consideration in Washington. Weeks said last week it would provide "the greatest shot in the arm of business," but he did not forecast any action.

The idea was expected to get a strong boost from the closed two-day sessions at which Weeks, Secretary of Defense McElroy and other top government officials are meeting with about 100 members of the BAC.

Sen. Homer Capehart (R-Ind) has introduced a bill which would permit companies to write off in depreciation for tax purposes large percentages of the cost of new plants and equipment in the first years of their life.

THE DEVICE was used in the Korean War to stimulate expansion of defense-essential industries. Its advocates today contend that its revival would create jobs by encouraging plant modernization, the replacement of obsolete machinery, and the tooling up for new and improved products.

The council's membership includes scores of the biggest names in American industry, and a discussion of possible anti-recession moves is high on its agenda.

Though reporters are barred from all sessions, several members readily reported:

1. They favor prompt legislation to ease the depreciation allowance on new plants, machinery and equipment as an incentive to industry to invest in plant modernization and tooling up for new products and processes.

2. Many also favor the lowering of excise taxes on autos, transportation and other depressed segments of industry, to bring prices within reach of more consumers.

Rejection of Social Security and a call for improved teacher retirement allotments; a teachers' "right-to-eat law" to guarantee for each teacher a 30-minute uninterrupted lunch period; and allotments for the gifted child, and further protective measures for teachers facing dismissal.

Ohio River Heads for Flood Crest

CINCINNATI (AP)—The flooded Ohio River will crest at Cincinnati at 58 feet at 7 a.m., Sunday, the Weather Bureau said today.

The swollen stream already is higher at the Queen City point than ever before recorded this late in the year. A Weather Bureau spokesman said the readings here should be 57 feet at 7 p.m., tonight; 57.5 at 7 a.m. Saturday and 57.9 at 7 p.m. Saturday.

Back in August of 1875 the river hit a stage of 53.4 feet and that mark was passed early today.

Damage, however, still was at a minimum. It takes a stage of 60 to 65 feet here to cause any serious trouble.

Although the weather forecast was for showers here today, the U. S. Weather Bureau said they should not cause any change in the expected crest.

The most serious flooding in areas hit by overflows was in eastern Kentucky. At Catlettsburg, some 300 families were evacuated.

Violent spring storms hammered the Oklahoma-Texas Panhandle area during the night, with rain, hail and strong winds.

Both the Big Sandy and the Ohio River were expected to crest at Catlettsburg today.

The Big Sandy, which overflowed at Pikeville, Prestonsburg and Paintsville Friday, forcing evacuation of several families, flows into the Ohio at Catlettsburg. The crest was predicted at more than 58 feet, more than 6 feet above flood stage.

Easing of flood dangers was indicated in southwestern Virginia, western West Virginia and parts of Louisiana. Hundreds of families in the flood-stricken regions have been forced from their homes this week by floodwaters.

Skies cleared in most of the rain-soaked sections of the Northeast today after nearly a week of downpours. But stormy weather hit areas from the southern Plains into sections of the Southeast.

The Ohio River crested from Pomeroy to Gallipolis today.

Members of the association are Yates Buick, Circleville Motors, Pickaway Motors, Flanagan Motors, Joe Moats, Ed Helwagen, Harden Chevrolet, Wes Edstrom and Clifton Motor Sales.

THE "BUY NOW" drive was sparked by two Cleveland auto dealers about six weeks ago and has spread throughout the country. The move was praised by President Eisenhower who said he believed it would help the American economy.

Backing the movement locally are the new car dealers, the Circleville Area Chamber of Commerce, Pickaway County banks and financial institutions, Pickaway County Insurance Agents Assn. and The Circleville Herald.

Aim of the drive is to promote sales now. Financial institutions all agree that most persons have money available to spend but are holding it closely. They agree that there is unemployment, but that spending now will put most unemployed back to work soon.

Heading up the "You Auto Buy

Now" drive here is the car dealers advertising committee, Ned Harden, Adrian Yates and Jack Clifton. Bonner Ezell is president of the association.

A list of car buyers will be published each day in The Herald during the week-long campaign to show that local persons are doing their part in bolstering the economy.

Car purchasers will be asked for permission to use their names in the paper as helping Circleville and Pickaway County to stay in good financial condition.

Noble Advises Route 23 Sign

Charles Noble, head of Ohio highway work, said today that the State Highway Department probably should erect some sort of sign south of Circleville on Route 23, indicating to motorists that they are approaching the city.

Noble and Frank M. Williams, deputy director of Division 6, Ohio Highway Department, visited The Circleville Herald today. Noble and Williams said they were traveling through the area talking to residents and checking highway conditions.

THE DEVICE was used in the Korean War to stimulate expansion of defense-essential industries. Its advocates today contend that its revival would create jobs by encouraging plant modernization, the replacement of obsolete machinery, and the tooling up for new and improved products.

Though reporters are barred from all sessions, several members readily reported:

1. They favor prompt legislation to ease the depreciation allowance on new plants, machinery and equipment as an incentive to industry to invest in plant modernization and tooling up for new products and processes.

2. Many also favor the lowering of excise taxes on autos, transportation and other depressed segments of industry, to bring prices within reach of more consumers.

Commerce Aide Given Proposal

Business Advisory Council Offers Plan

HOT SPRINGS, Va. (AP)—A special committee of the Business Advisory Council proposed today that President Eisenhower call a voluntary one-year moratorium on wage and price increases.

The report was presented to Secretary of Commerce Weeks and to more than 100 top U.S. industrialists attending the Council's closed sessions here. The Council is an advisory body to the Commerce Department.

The committee recommended against any general tax reduction at this time. It said such action may be proper if general consumption continues to decline. The group strongly opposed federal projects of the type called "make work."

The special committee was formed at Weeks' request. It was headed by T. V. Houser, chairman of Sears, Roebuck and Co., who presented the findings to the council.

TO AVOID further lowering of public purchasing power and possibly to encourage price reduction, the committee said Eisenhower should issue a call for a moratorium on further wage rate increases by labor and on corresponding price increases by business.

Council members head reports that the administration is considering another anti-recession measure—a request to Congress to liberalize tax write-offs for all industry.

A government source reported privately the plan is getting serious consideration in Washington. Weeks said last week it would provide "the greatest shot in the arm of business," but he did not forecast any action.

The idea was expected to get a strong boost from the closed two-day sessions at which Weeks, Secretary of Defense McElroy and other top government officials are meeting with about 100 members of the BAC.

Sen. Homer Capehart (R-Ind) has introduced a bill which would permit companies to write off in depreciation for tax purposes larger percentages of the cost of new plants and equipment in the first years of their life.

Miss Pflug met Beucher, from Connellsville, Pa., at the Fisherville, Va., rehabilitation center where she took secretarial training. She also drives a car, is a good cook, and paints.

She was fitted for artificial arms recently but said she preferred to use her feet as she has all of her life.

Official Tally Shows Slight Changes in Primary Voting

Several of the unofficial tallies registered by candidates in the Tuesday primary were altered to today when the Pickaway County Board of Elections released its official vote count.

Most significant change was in the official tally of the county commissioner race. Charles Morris' narrow margin of a 15-vote victory over incumbent Harley Mace dropped five more votes and gave him a 10-vote victory. The final count read Morris, 983, Mace, 973, Hewett Cromley, 785, an increase of eight votes, and Bernard Steinhouser, 226, a drop of 19 votes from his unofficial tally.

Other significant changes were Governor C. William O'Neill's margin of victory over Charles P. Taft increase from 20 votes to 53. The final tally showed O'Neill receiving 890 votes to Taft's 837.

In the Democratic primary nomination race, Cleveland Mayor Anthony J. Celebrezze picked up two votes for a 70 vote total. Cincinnati Robert N. Gorman dropped 15 votes for a final total of 210. Clingan Jackson, Youngstown, ended up with 16 votes and Vivienne L. Suarez, Columbus, gained one ballot for a 36 total.

The Democratic lieutenant governor was altered when Albert T. Ball, Cleveland, dropped a vote for a 76 total; John W. Doherty, Columbus, dropped 29 votes for a 1,103 count; Frank Smith, who resigned his Portsmouth's postmastership to run, gained nine votes for an official total of 372, and John J. Gallagher, Cleveland, dropped seven votes for a total of 259.

Patrolman Gets Award for Valor

COLUMBUS — Highway patrolman Augustine P. Giuffre, wounded three times in a gun battle with a robbery suspect, today was presented the patrol's highest award for valor—the O. W. Merrell Award.

Giuffre, who is attached to the Columbus post, was wounded while questioning two men at a drive-in restaurant west of Columbus about a Madison County robbery. The incident occurred Dec. 19, 1957.

Giuffre was hit in the left wrist, arm and chest. The two suspects, James Myers and Walter Jankowski, fled but were later captured and sentenced to prison.

Starkweather Jury Hearing Evidence

LINCOLN, Neb. — The prosecution began calling witnesses today before a jury of four men and eight women in the murder trial of Charles Starkweather, 19, who has admitted involvement in 11 slayings last January.

The defense entered a plea of innocent by reason of insanity.

County Atty. Elmer Scheele told the jury Thursday that Robert Jensen, 17, of Bennet, for whose murder Starkweather is on trial, was shot six times from behind.

Then the defense attorney, F. Clement Gaughan, told the jury that Starkweather was suffering from delusions when he killed.

Welfare Staffs Attend Workshop

The entire staffs of the Pickaway County Aid for Dependent Children and General Relief Departments attended a public assistance workshop held in the Deshler-Hilton Hotel Wednesday and Thursday.

The staffs consisted of department heads Miss Pauline Reese and Mrs. Dorothy Gerhardt and their assistants, Mrs. Emily Vaughan and Mrs. Howard Pryor. The workshop consisted of a summary of the many problems facing these departments and the best ways to handle them. They also explained operation of the state aid programs and administrative aspects of the laws covering these offices.

Steels, Rails Set Pace as Stocks Climb

NEW YORK — Steels and rails were pacemakers as the stock market improved in active trading early this afternoon.

Leading stocks were up fractions to around a point.

For the seventh time in eight sessions the market was moving into new high ground for the year although the average is still far below the 1957 highs.

The market was slightly higher at the opening, which was active enough to cause a brief late spell in the ticker tape. Prices kept a narrowly higher edge for a while and then widened somewhat.

The overnight news was hardly bullish, including reports that auto sales in April failed to respond to seasonal factors and that total employment in manufacturing lines dropped between mid-March and mid-April. But Wall Streeters reported that considerable investment money, notably from institutions, is available for stock purchases and this continues to firm the market.

Illinois Central rose about a point. Fractional gains were made by Southern Pacific, Santa Fe, Baltimore & Ohio, Southern Railway and Chesapeake & Ohio.

U.S. Steel and Youngstown Sheet were up major fractions.

Bethlehem's gain was smaller. American Motors gained around a point, a big percentage rise for this low-priced issue. Chrysler dropped a major fraction.

Both International Harvester and Caterpillar rose fractionally. Allied Chemical was up about a point.

U.S. government bonds declined.

U.S. Recession Countdown Is Fascinating

**Optimists, Doubters
Keeping Close Tab
On Present Economy**

By SAM DAWSON
NEW YORK (AP) — The count-
down on the recession is still one
of the most fascinating games for
business today.

An increasing number see the
slump bottoming out now and say
that the worst of joblessness and
slack industrial output, if not be-
hind us, is at least here.

As imposing a number of doubt-
ers note there are few statistics
to back up this hope and caution
that there may be more downhill
going.

Still more warn that when the
bottom is reached it may be quite
a spell before any real upturn
starts.

The timing of the recession's
end is largely a preoccupation of
the industrial northeastern quar-
ter of the land.

Remember that there are large
sections of the nation where times
in general are better than they
were a year ago, and a number
of industries who are still going
strong on the upgrade.

In the wide disagreement among
bankers, industrialists, economists
and politicians as to at just what
point in the industrial recession
we now stand, there is fairly gen-
eral agreement that spring has
brought a slowdown in the current
rate of business decline.

The New York federal reserve
bank in its May review notes this
but sees little positive evidence
that the leveling off point is near.

The Guaranty Trust Co. of New
York, in its May survey, warns
that "no clear cut improvement
has yet been registered" but that
on the contrary "there continue to
be several formidable obstacles in
the path of early revival."

It notes that sharp as inventory
cutting has been, sales have
shrunk relatively even more "so
that quite generally throughout in-
dustry and trade inventory-to-
sales ratios are as high as or high-
er than they were at the start of
the recession."

The U. S. commissioner of labor
statistics, Ewan Clague, warns
that a rise in housing starts this
year isn't by any means assured
unless the general economic situa-
tion improves. If it does, he ex-
pects a moderate rise in the last
half of this year.

Against all these words of cau-
tion should be weighed the opti-
mistic reports of late from a num-
ber of companies and industries
that new orders are showing mod-
est improvement and that their
customers must be scraping the
bottom of the inventory barrel.

Weigh them all and its looks as
if it still is any man's guess.

New Space Agency Bill Is Sought

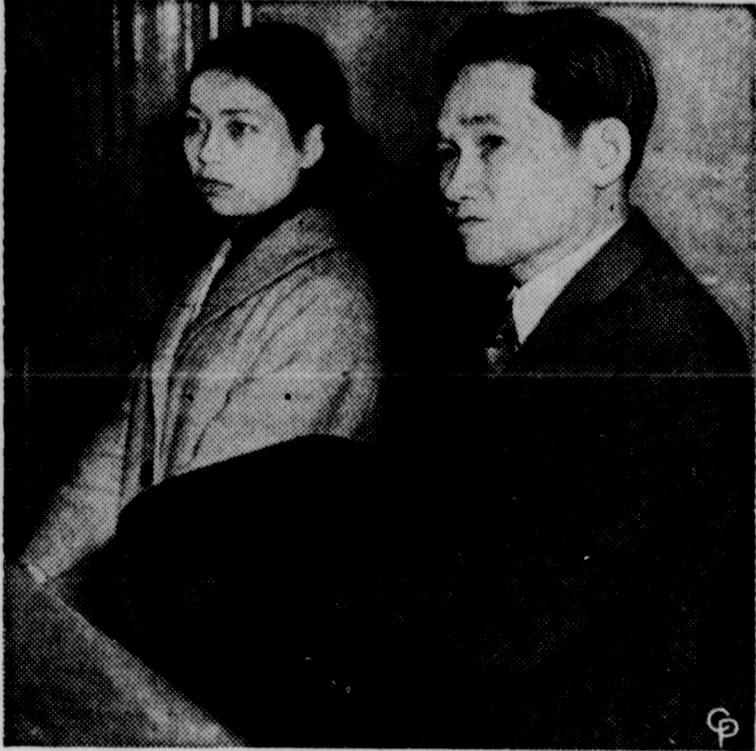

WASHINGTON (AP) — Government
officials have an invitation to help
rewrite President Eisenhower's
proposal to set up a new top-level
civilian space agency.

"The door is wide open," said
Sen. Lyndon B. Johnson (D-Tex.),
chairman of the Senate Space
Committee.

Roy W. Johnson, head of the
new military space agency in the
Department of Defense, told the
committee he does not support the
White House bill as written.

Auto Salesmen Curbed

NEW YORK (AP) — New York In-
ternational Airport is now off lim-
its to automobile salesmen. Twenty-
five auto dealers in the area
agreed today to bar auto salesmen
from the field to end high-pressure
sales to returning GIs.

ARRESTED IN DOPE RAID—You Hong Ting and his wife are shown in a New York police station after they were arrested in connection with the possession of narcotics. Federal agents raided Ting's Chinatown gift shop and allegedly found about \$1,500,000 worth of heroin hidden in jade bags inside a secret wall panel. Mrs. Ting was given a screen test in Hollywood, Calif., last year after Ting married her in Hong Kong and then brought her to the United States. (International)

A blimp? No!—It's a bathyscaphe such as Navy uses.

Scientists Explore Ocean

By RICHARD S. BLOCH
Written Especially for Central Press and This Newspaper

Man is probing farther and farther into the unknown reaches of space, but there are places right here on earth—the bottoms of our oceans—where he's never been.

United States Navy scientists, using a strange looking device called a bathyscaphe, are studying the ocean depths to unlock the secrets that may be useful in submarine warfare and for other purposes.

This sea-going contraption, invented by the famed Prof. Auguste Piccard, looks more like a blimp than a boat. Iron shot magnetically attached to the hull of the ship causes it to descend. When this is released the bathyscaphe rises.

The craft is made bouyant by filling it with gasoline, which is lighter than water. It can hover at any depth and suggestions have even been made that it might someday be used as a "satellite" stationed under the sea.

One of its main purposes, however, is to study the ocean floor and for this job it can go down more than three miles, far deeper than any submarine has ever descended. The underwater mountains and hills, and even the stretches of smooth surface give clues to the currents and their changing patterns.

When more is known about the current, it is easier to predict the deep sea climate in various spots and where fish are likely to be found. To the submarine skipper or steamship captain, all this is important.

No one who has gone down in the bathyscaphe will testify as to what fish talk about, but many have heard them whistle, grunt, squeal and make grinding noises. This, too, is studied for military and scientific information.

What types of creatures inhabit the ocean floor? On the dives in the Mediterranean observers noticed a series of holes in the mud, apparently used for fast escape by some animals or fish when being chased by an adversary. On one occasion a scientist noticed a long worm slither into one of the dark passageways.

All kinds of fish, of course, are seen on these trips and many with new and fascinating characteristics. In the Mediterranean area a fish was observed which seemed to have all its body covered with white down. It had a V-notched tail and a large brown eye with a blue semi-circle behind it.

As time goes on it is not unlikely that more bathyscaphes, meaning "deep boats," will probably be made and more information will be discovered about the ocean floor in various parts of the world.

Behind the Scenes

NEW YORK (AP) — Everything doesn't meet the eye on Broadway when it comes to getting a play on stage.

The new hit drama, "Two for the Seesaw," has just two performers, Henry Fonda and Anne Bancroft.

But the skills of 20 technicians are used backstage to handle scene shifts, light cues and other mechanical details at each performance.

The crew is one of the largest required for any play on the White Way, regardless of size of the acting company.

U.S. Recession Countdown Is Fascinating

Optimists, Doubters Keeping Close Tab On Present Economy

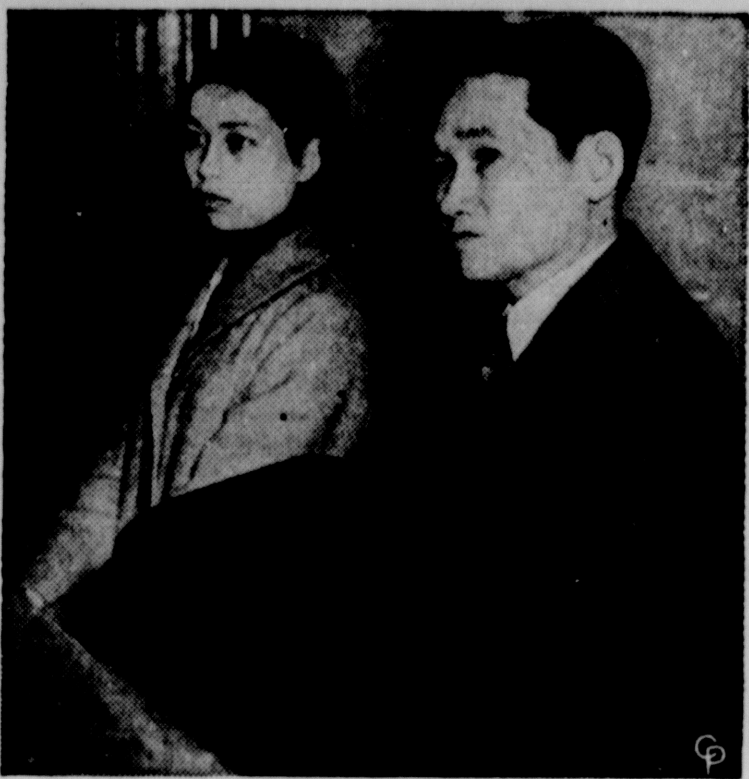

By SAM DAWSON
NEW YORK (AP) — The countdown on the recession is still one of the most fascinating games for business today.
An increasing number see the slump bottoming out now and say that the worst of joblessness and slack industrial output, if not behind us, is at least here.
As imposing a number of doubters note there are few statistics to back up this hope and caution that there may be more downhill going.
Still more warn that when the bottom is reached it may be quite a spell before any real upturn starts.
The timing of the recession's end is largely a preoccupation of the industrial northeastern quarter of the land.
Remember that there are large sections of the nation where times in general are better than they were a year ago, and a number of industries who are still going strong on the upgrade.
In the wide disagreement among bankers, industrialists, economists and politicians as to at just what point in the industrial recession we now stand, there is fairly general agreement that spring has brought a slowdown in the current rate of business decline.
The New York federal reserve bank in its May review notes this but sees little positive evidence that the leveling off point is near.
The Guaranty Trust Co. of New York, in its May survey, warns that "no clear cut improvement has yet been registered" but that on the contrary "there continue to be several formidable obstacles in the path of early revival."
It notes that sharp as inventory cutting has been, sales have shrunk relatively even more "so that quite generally throughout industry and trade inventory-to-sales ratios are as high as or higher than they were at the start of the recession."
The U. S. commissioner of labor statistics, Ewan Clague, warns that a rise in housing starts this year isn't by any means assured unless the general economic situation improves. If it does, he expects a moderate rise in the last half of this year.
Against all these words of caution should be weighed the optimistic reports of late from a number of companies and industries that new orders are showing modest improvement and that their customers must be scraping the bottom of the inventory barrel.
Weigh them all and its looks as if it still is any man's guess.

New Space Agency Bill Is Sought

WASHINGTON (AP) — Government officials have an invitation to help rewrite President Eisenhower's proposal to set up a new top-level civilian space agency.
"The door is wide open," said Sen. Lyndon B. Johnson (D-Tex.), chairman of the Senate Space Committee.
Roy W. Johnson, head of the new military space agency in the Pentagon, told the committee he does not support the White House bill as written.

Auto Salesmen Curbed

NEW YORK (AP) — New York International Airport is now off limits to automobile salesmen. Twenty-five auto dealers in the area agreed today to bar auto salesmen from the field to end high-pressure sales to returning GIs.

ARRESTED IN DOPE RAID—You Hong Ting and his wife are shown in a New York police station after they were arrested in connection with the possession of narcotics. Federal agents raided Ting's Chinatown gift shop and allegedly found about \$1,500,000 worth of heroin hidden in jade bags inside a secret wall panel. Mrs. Ting was given a screen test in Hollywood, Calif., last year after Ting married her in Hong Kong and then brought her to the United States. (International)

Scientists Explore Ocean

By RICHARD S. BLOCH
Written Especially for Central Press and This Newspaper
Man is probing farther and farther into the unknown reaches of space, but there are places right here on earth—the bottoms of our oceans—where he's never been.
United States Navy scientists, using a strange looking device called a bathyscaphe, are studying the ocean depths to unlock the secrets that may be useful in submarine warfare and for other purposes.
This sea-going contraption, invented by the famed Prof. Auguste Piccard, looks more like a blimp than a boat. Iron shot magnetically attached to the hull of the ship causes it to descend. When this is released the bathyscaphe rises.
The craft is made bouyant by filling it with gasoline, which is lighter than water. It can hover at any depth and suggestions have even been made that it might

someday be used as a "satellite" stationed under the sea.
One of its main purposes, however, is to study the ocean floor and for this job it can go down more than three miles, far deeper than any submarine has ever descended. The underwater mountains and hills, and even the stretches of smooth surface give clues to the currents and their changing patterns.
When more is known about the current, it is easier to predict the deep sea climate in various spots and where fish are likely to be found. To the submarine skipper or steamship captain, all this is important.
No one who has gone down in the bathyscaphe will testify as to what fish talk about, but many have heard them whistle, grunt, squeal and make grinding noises. This, too, is studied for military and scientific information.
What types of creatures inhabit the ocean floor? On the dives in the Mediterranean observers noticed a series of holes in the mud, apparently used for fast escape by some animals or fish when being chased by an adversary. On one occasion a scientist noticed a long worm slither into one of the dark passageways.
All kinds of fish, of course, are seen on these trips and many with new and fascinating characteristics. In the Mediterranean area a fish was observed which seemed to have all its body covered with white down. It had a V-notched tail and a large brown eye with a blue semi-circle behind it.
As time goes on it is not unlikely that more bathyscaphes, meaning "deep boats," will probably be made and more information will be discovered about the ocean floor in various parts of the world.

Behind the Scenes

NEW YORK (AP) — Everything doesn't meet the eye on Broadway when it comes to getting a play on stage.
The new hit drama, "Two for the Seesaw," has just two performers, Henry Fonda and Anne Bancroft. But the skills of 20 technicians are used backstage to handle scene shifts, light cues and other mechanical details at each performance.
The crew is one of the largest required for any play on the White Way, regardless of size of the acting company.

Is Now the Time To Buy?

The consumer, pulled and hauled between advice to "wait and see" and urges to purchase, may wonder about validity of the "buy now" campaigns currently in operation.

The word coming from disinterested economists—those without an axe to grind—is that, by and large, this is a good time to buy.

The big reasons are that prices are more likely to go up in the years ahead than down, and some real bargains are being offered in cars and household appliances. Also, economists say prices overall will not go much lower.

There are too many built-in elements—

such as wages—which keep prices stable in most lines. These will not be budged much.

So the consumer who is thinking of buying and who needs a given piece of hardware is undoubtedly smart to buy while prices are in the "trough." Waiting too long may result in being trapped by a price rise.

Crazy Men Talking Now

By George Sokolsky

Bertrand Russell, the British philosopher, who has earned an enormous world reputation as a mathematician, politician, lover and geriatric, wrote to Alfred Kohlberg, who has denominated himself as the "China Lobby," as follows:

"As for your accusation that the policy I have advocated has changed from time to time: it has changed as circumstances have changed. To achieve a single purpose, sane men adapt their policies to the circumstances. Those who do not are insane."

This is the last paragraph of a letter in which Russell advocated "unilateral nuclear disarmament" for Great Britain if negotiations for universal nuclear disarmament should fail. This idea may be all right for the British, but it is meaningless in the situation in which the United States finds itself. Russell, who does not believe in absolutes, comes up with this one:

"... I favour negotiations between them for abolition of nuclear weapons by both sides. I do hold, however, that, if all negotiations prove futile and no alternatives remain except Communist domination or extinction of the human race, the former alternative is the lesser of two evils."

In a word, the ancient philosopher prefers slavery to death, which is, of course, his option. Patrick Henry preferred to risk death to win liberty which was the old-fashioned American idea. Perhaps the difference lies in age. Lord Russell is 86 years old. However, Herbert Hoover, who is nearly 84, would turn

such cowardice down.

Many young Americans are influenced by the views of Lord Russell who for many years earned a part or much of his living travelling about the United States, lecturing and amusing American audiences by a general condemnation of American folkways which apparently appeared somewhat primitive to his exalted mind.

As to sane men adapting their policies to circumstances, this is a subject that requires considerable thought. Certainly the mobsters who attended the Apalachin Conference were adapting themselves to circumstances. It has become necessary to replace the older statesmanship of Frank Costello by a more dynamic leadership in the world of private enterprise, namely, the operation of certain competitive, marginal industries which legislation has made illegal. So these very practical men selected a secluded and unusual place where about 60 of them met in a most sane manner to adjust themselves to circumstances.

Their predecessor, Al Capone, must surely have been sane, for he adjusted brilliantly to the circumstance of Prohibition and established a state within a state, over which he ruled with sawed-off shotgun.

Those who did not adapt their policies to the circumstance of Prohibition, drank home-made bathtub gin and were blinded or died of thirst because of their absolute principle that the law is the law no matter what one thinks of it.

The world without absolutes in which Bertrand Russell lives

is not very great improvement upon the world of Queen Victoria when absolutes reigned even to the point of making it less ill-mannered to have a mistress secretly than to throw the mother of one's children into the gutter to satisfy a fancy.

There were probably as many sinners then as now, but we knew less about them because nobody extolled sin or made heroes of the wicked and heroines of adulteresses. Perhaps philosopher Russell would say that it is all in the point of view and that Lana Turner is a jollier person than Florence Nightingale and that in the circumstances of the present age Rita Hayworth should be set up as a model for all schoolgirls and His Excellency, the Pakistani Ambassador to the United Nations, Aly Khan, as a model for all schoolboys.

Bertrand Russell, by his adjustabilities, spreads confusion in a troubled age. It is the same order of confusion that makes Alger Hiss palatable to Princeton University but not Father Hugh Halton. It is the same order of logic which encourages public officials to violate the law if sufficient pressure is put on them, say, by labor leaders. It is the same order of confusion which encourages broken homes to preserve the "happiness" of a mother who has abandoned concern over the welfare and sanity and potential decency of her child. It is the same relativism which encourages social workers to coddle criminals, 20 years of age, but not 21, because they are still juvenile.

If that is sanity, most sane people will pray that the Lord preserve them from it.

"Don't forget to stop at the post office."

Nerves Cause Umbilical Colic

By Herman N. Bundesen, M.D.

Most parents believe that once a child reaches the age of three or four months, he will never be bothered by colic again.

While intestinal colic generally does not persist beyond this age, there are other types of colic which can cause trouble at just about any age.

Probably the most common is umbilical colic. About its only similarity to intestinal colic is the pain.

It usually occurs in girls between the ages of five to 12. Apparently, it is entirely of nervous origin. The attacks can occur at any time of the day, usually without any definite indication of the cause.

Sometimes it may follow moderate excitement; sometimes it may occur during a meal while the youngster is still at the table. Obviously, indigestion or swallowing air cannot be the source of the trouble since it occurs before the meal is even finished.

We believe that such cases are caused by nervous anticipation. In other words, the youngster anticipates and fears the pain, thus actually causing the pain.

The attacks come on suddenly and consist of abdominal pain in the region of the umbilicus, hence the name, umbilical colic. The pain can be moderate, but usually is rather severe.

Usually it will cause the child to cry, possibly turn pale and to draw his or her thighs up in an effort to relieve the pain. The youngster will probably press both arms against the abdomen in an attempt to ease the symptoms.

These attacks may last only a few minutes or may continue for several hours with frequent respite from the pain. They can occur every day or at irregular periods. Sometimes these attacks will continue for months or even years.

The first attacks of umbilical colic sometimes are mistaken by parents for appendicitis. With appendicitis, however, the patient usually has fever and vomits. These symptoms do not accompany umbilical colic.

Unfortunately, one of the best

remedies for these cases is a complete change of surroundings.

The parents of a youngster who has become a victim of umbilical colic, naturally, discuss the case very frequently. Such discussions in the presence of the child only act to perpetuate the condition.

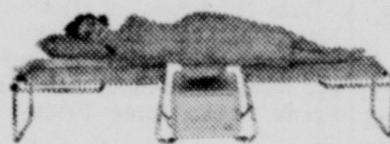

Drugs such as atropine and pilocarpine generally are helpful.

Question and Answer
T.P.: I have a persistent itching around the rectum. Everything I have tried has failed. Have you any recommendations for treatment?

Answer: Usually itching of the rectum is relieved by a bland diet and the use of soft toilet tissue. The new antihistamine creams are often helpful in the treatment of this disorder. If these methods do not help, surgery sometimes may clear it up. Better see your doctor.

About \$500,000 is being spent for a new road from Dawson, on the Canadian border of Alaska, to Clinton Creek, near the Arctic, where base metals and asbestos deposits have been discovered.

Probably the most common is umbilical colic. About its only similarity to intestinal colic is the pain.

It usually occurs in girls between the ages of five to 12. Apparently, it is entirely of nervous origin. The attacks can occur at any time of the day, usually without any definite indication of the cause.

Sometimes it may follow moderate excitement; sometimes it may occur during a meal while the youngster is still at the table. Obviously, indigestion or swallowing air cannot be the source of the trouble since it occurs before the meal is even finished.

We believe that such cases are caused by nervous anticipation. In other words, the youngster anticipates and fears the pain, thus actually causing the pain.

The attacks come on suddenly and consist of abdominal pain in the region of the umbilicus, hence the name, umbilical colic. The pain can be moderate, but usually is rather severe.

Usually it will cause the child to cry, possibly turn pale and to draw his or her thighs up in an effort to relieve the pain. The youngster will probably press both arms against the abdomen in an attempt to ease the symptoms.

These attacks may last only a few minutes or may continue for several hours with frequent respites from the pain. They can occur every day or at irregular periods. Sometimes these attacks will continue for months or even years.

The first attacks of umbilical colic sometimes are mistaken by parents for appendicitis. With appendicitis, however, the patient usually has fever and vomits. These symptoms do not accompany umbilical colic.

Unfortunately, one of the best

remedies for these cases is a complete change of surroundings.

The parents of a youngster who has become a victim of umbilical colic, naturally, discuss the case very frequently. Such discussions in the presence of the child only act to perpetuate the condition.

Drugs such as atropine and pilocarpine generally are helpful.

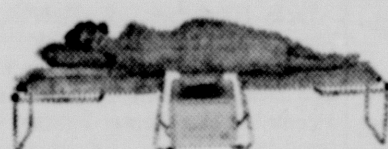

Question and Answer

T.P.: I have a persistent itching around the rectum. Everything I have tried has failed. Have you any recommendations for treatment?

Answer: Usually itching of the rectum is relieved by a bland diet and the use of soft toilet tissue. The new antihistamine creams are often helpful in the treatment of this disorder. If these methods do not help, surgery sometimes may clear it up. Better see your doctor.

Air Force Jet Rockets Up To 91,249-Foot Altitude

WASHINGTON — The Air Force today officially claimed recapture of the world altitude record with the climb to 91,249 feet by an F104A Starfighter jet.

The Air Force said the altitude mark, achieved Wednesday over Palmdale, Calif., exceeded by more than two miles the level of 89,190 feet registered only last week by a French experimental Trident Isere-06.

The Starfighter, described by Gen. Nathan Twining, chairman of the Joint Chiefs of Staff, as "the most advanced plane of its type ever developed," was piloted by Maj. Howard C. Johnson, 37, of

Novato, Calif., and Knoxville, Tenn.

The 17-mile climb by the Starfighter, designed to exceed the speed of sound in straight upward flight, was completed in 27 minutes.

The Starfighter, features wings that extend only 7½ feet from the fuselage. The wings are thin and the leading edges razor sharp.

Disclosure of the climb first came from the Lockheed Aircraft Corp., which manufactures the F104A.

The results of the flight over the Mojave Desert were confirmed by officials of the National Aeronautical Assn., the Lockheed announcement said.

Johnson, who took off from Hamilton Air Force Base, Calif., flew higher than any man who ever took off in a plane from the earth. Only an experimental rock-

et plane ever has gone higher, and it was launched from a mother plane.

Lockheed quoted Johnson as saying the flight took him through temperatures lower than 60 degrees below zero Fahrenheit.

He said he accelerated to maximum speed, pulled into a high angle climb and zoomed into the thin atmosphere to the peak at 91,249 feet.

He said the ultrasonic fighter is moving today's fighter pilot well out to the region where the sky is deep blue, turning almost black. Johnson said he was too busy to do much sightseeing.

The plane hit more than twice the speed of sound on the flight, the announcement reported.

SAN FRANCISCO — Linda Lee Larsen, 3, ran ahead, as usual, to press the button for the automatic elevator as her babysitter prepared to leave.

The babysitter remained at the door of Linda's suite chatting for a moment. The elevator arrived at the fourth-floor and its outside door opened.

Linda was caught between the inner grill and outer door which closed behind her.

Somebody pressed the button on another floor and Linda was crushed to death.

New York To Get Big Office Building

NEW YORK — The world's largest commercial office building is planned for the Grant Central Terminal area.

Irwin S. Wolfson, spokesman for a group planning the 50-story structure, said it should be completed in 1961 at a cost of about \$100 million.

To be known as Grant Central City, the building will contain floor rental area of more than three million square feet. The 75-foot RAC Building, largest commercial skyscraper now in use, has 2,300,000 square feet of space.

Uhrichsville Claims Victory In Fuss over State Highway

UHRICHVILLE, Ohio (AP)—Mayor Jess Dempster today claimed victory in his battle with Ohio over financing a highway rebuilding job.

Dempster's main weapon has been a barricade which for nearly a month has barred traffic from a rutted, 1,800-foot section of highway carrying U. S. 250, U. S. 36 and Ohio 8 through this city of 7,000.

The mayor said William Quickall, State Highway Department division 11 engineer, told a regular meeting of City Council Thursday night that the state would recommend federal participation in a rebuilding project if Uhrichsville would pay 12.8 per cent of the cost.

Congresswoman's Husband Puts Foot Down on 3rd Term

OKLEE, Minn. (AP)—The husband of Rep. Coya Knutson (D-Minn) said today he had asked his wife not to run for a third term.

In a statement, Andrew Knutson said that "since her election four years ago our home life has deteriorated to the extent that it is practically nonexistent."

Rep. Knutson was not available for comment.

"I want to have the happy home that we enjoyed for many years prior to her election," Knutson said, adding that he expects his wife to comply with the request.

Rep. Knutson, who was elected to her first term from Minnesota's 9th District in 1954, was the first woman ever named to the House Agriculture Committee.

Knutson, 50, owns a small hotel in Oklee and also works for an implement company here as a machine installer.

New Son Is Born Soon After Tragedy

DAYTON (AP) — A new son was born Thursday to a Dayton woman who only a few hours earlier had tried desperately, but in vain, to save another son from a flaming death.

Mrs. Eleanor Jillson, 33, had been taken to St. Elizabeth Hospital for treatment of severe burns suffered when she tried to rescue her son, Terry, 4, from a neighbor's garage.

Police said Terry and four companions were playing with matches in the garage Wednesday when the boy's clothing caught fire. Two of the companions became panicky, officers said, and in fleeing from the garage, slammed the door, automatically locking it.

School Area Transfer Decision Handed Down

COLUMBUS (AP) — The Ohio Supreme Court ruled Wednesday, in a Marion County case, that local school boards have no right to protest the transfer of their school district territory.

The court instructed the Marion Local School District that it is not entitled to sue to enjoin the transfer of part of its territory to Meek-er Local School District. It said the law authorizes county boards of education to transfer school territory and provides for protest only to electors of the affected area.

Ohio AFL-CIO Set To Fight Shop Ban

CLEVELAND (AP) — For its first objective the newly merged Ohio AFL-CIO has set its sights on defeating a proposed constitutional amendment to ban the union shop in Ohio.

A resolution approved by the state AFL-CIO convention Thursday placed "every resource" of the united labor group, with its more than one million members, behind a campaign to defeat the so-called right-to-work amendment proposal.

A statewide publicity campaign, to be financed by \$1-per-member contributions, was urged.

Uhrichsville Claims Victory In Fuss over State Highway

UHRICHVILLE, Ohio (AP) — Mayor Jess Dempster today claimed victory in his battle with Ohio over financing a highway rebuilding job.

Dempster's main weapon has been a barricade which for nearly a month has barred traffic from a rutted, 1,800-foot section of highway carrying U. S. 250, U. S. 36 and Ohio 8 through this city of 7,000.

The mayor said William Quicksall, State Highway Department division 11 engineer, told a regular meeting of City Council Thursday night that the state would recommend federal participation in a rebuilding project if Uhrichsville would pay 12.8 per cent of the cost.

Council then held a special meeting, Dempster said, and passed unanimously a measure calling for payment of 12.8 per cent of a \$135,000 reconstruction project.

But the mayor added: "The barricades will be kept up until the federal government assures us it will participate."

He said Quicksall had "almost assured" council the project would be approved.

The issue at Uhrichsville has with similar problems, with similar problems.

Only last Saturday the Highway Department issued a strong statement which department sources said was aimed at Uhrichsville.

That statement referred to "a situation which has caused the department great concern... the attempt by one city to gain far more state financial aid than other cities get and are entitled to under the department's policy."

The statement added that the state will "continue to treat all cities on an equal basis."

Dempster has maintained Uhrichsville could not afford the 50 per cent demanded by the state for a rebuilding job, considered a necessity in this case. He said he closed the highway because it was not safe for use in its present condition.

Dayton, Ohio, was the scene of the Wright Brothers first experiments with the airplane and still is a major center of aeronautical research.

OKLEE, Minn. (AP) — The husband of Rep. Coya Knutsen (D-Minn.) said today he had asked his wife not to run for a third term.

In a statement, Andrew Knutsen said that "since her election four years ago our home life has deteriorated to the extent that it is practically nonexistent."

Rep. Knutsen was not available for comment.

"I want to have the happy home that we enjoyed for many years prior to her election," Knutsen said, adding that he expects his wife to comply with the request.

Rep. Knutsen, who was elected to her first term from Minnesota's 9th District in 1954, was the first woman ever named to the House Agriculture Committee.

Woman Doctor Finds Blind Guided by 'Body Radar'

INNSBRUCK, Austria (AP) — A pretty, blonde doctor of philosophy has discovered that blind people "see" obstacles by means of body radar.

To find out, 22-year-old Helga Domes placed a blindfold over her eyes and for a month lived the life of a person without sight. "I walked through the streets of Innsbruck for four weeks," she says. "I attended an opera performance and went out in the woods."

"I lived in a home for the blind and I learned their way of reading with their fingers."

Helga found herself being guided by what is called "long distance sense," a sort of body radar. She says:

"I allowed myself to be guided by this sense, I could easily hear the sound waves reflected from obstacles. The sense worked by a sort of pressure behind the forehead as I approached an obstacle at about five feet."

"The sound waves were not only caused by noise, but also by air being thrown back from an obstacle, or even by light air movement."

Helga, her sight cut off by sev-

en layers of felt and motorcyclists' goggles, was a "guinea pig" of the Innsbruck Institute for Experimental Psychology.

To test her reaction, the scientists plastered her face, made face muscles rigid by injections and clamped her nose. But it turned out that all this did not handicap her newly-acquired "long-distance sense." However, as soon as her ears were stuffed up, she lost the sense and knocked against the obstacles.

In the first week of the experiment, Helga "recognized" a wall at a distance of half a yard. In the fourth week, she was able to move without hesitation in a forest, her eyes bound up as usual, without knocking against a tree.

The scientists said Helga had proved beyond doubt that "long distance sense" develops in blind people.

Helga also examined the psychological effects of blindness.

She said:

"A blind human being is suspicious. They have to rely on voices to judge people. Afterwards I often found out that I was 'cheated' by some voices. If I heard a high voice, I thought of a tall, thin per-

son. Another time I thought the man I talked to was small, but I found out that he merely had crouched. Sometimes such things are done without purpose but result in arousing perpetual suspicion in a blind person.

"You also become frightened. I was terrified by the noise of small objects falling to the ground or by the barking of dogs. Small, everyday things became a huge problem; if I forgot, for instance, to smell the tooth paste before using it, I brushed my teeth with face cream."

"When the experiment was over and I took off the goggles and the felt strip, I was not happy at first. The world appeared strange, colors too piercing and the mountains too high. Only 24 hours afterwards I was happy again to be able to see."

Cleric Refuses To Leave Home

Episcopalian To Stay In Brooklyn Rectory

NEW YORK (AP)—The Rev. Dr. John Howard Melish, the embattled episcopalian clergyman, has told his bishop he won't move out of the Brooklyn rectory where he has lived for 54 years.

Rejecting the bishop's offer of a home on eastern Long Island, the invalid rector emeritus wrote to the bishop:

"I shall, of course, leave my home some day, and at 83 and nearing 84, that day cannot be far away. But I hope to end my life where for 54 years it has been lived."

Dr. Melish—caught in the mesh of a controversy that has raged for more than a decade—sent his formal rejection Thursday.

Bishop James P. DeWolfe had offered Dr. Melish a six-room refurbished home at Riverhead, N. Y. if he would move out of the rectory of the Church of the Holy Trinity.

The bishop wants the rectory vacated so that the Rev. Dr. Herman S. Sidener, the new rector of the church, can move in.

Dr. Melish is appealing a State Supreme Court eviction order.

His son, the Rev. William Howard Melish, storm center of the long parish feud, moved out of the rectory last Monday. The son said he left so as not to jeopardize the fathers case in court. The son has said his status in the rectory was that of a guest of his father. The father claims a right to lifetime occupancy of the rectory under a vestry decision in 1951.

Dr. Melish was removed as rector more than 10 years ago for countenancing the left-wing activities of his son. The son, who had been assistant rector, then took over the parish in the role of supply priest. He has repeatedly denied any Communist association. But he was finally removed and Dr. Sidener was installed.

"Mary Haworth's Mail"

DEAR MARY HAWORTH: My husband and I have been married 15 years and have four children. These years have been really stormy ones, and we've been told that we are emotionally immature and never can make marriage work.

We have been to psychiatrists, priests, back to psychiatry, back to priests, etc., and nothing works. So we have decided to forget all the advice, read some books on family relationships, go back to college, and stay together anyway. Can you name me some books?

V.J.

DEAR V.J.: You say you've consulted psychiatrists and priests, time and again, to no avail. But have you tried group therapy, supervised by a specialist, as an educational guide in outgrowing your immaturity?

It might work wonders for you and your husband, by giving you a real interchange with other people — an experience of thinking about your problems, with their help, and getting an honest slant on yourself, as seen through their eyes.

Inquire of psychiatric leaders in your community, as to whether such a group exists, or can be organized.

If nothing develops, you might write to Recovery, Inc., 116 South Michigan Avenue, Chicago 3, Illinois, for information about its training program—designed to help psychological cripples straighten up and fly right.

Dr. Abraham A. Low's book "Mental Health Through Will Training" (Christopher Publishing House, Boston, Mass.) tells the story of Recovery, Inc., and provides the reader with lesson-material, to be used in group sessions. Much has been written in leading journals, about Dr. Low's responsible efforts to make psychotherapy freely available to the masses, as needed. And the past 10 years have been a rising tide of usage and approval of the methods he outlines.

Wingfield Hope's book is "Life Together" (Sheed & Ward).

M.H.

DEAR MARY HAWORTH: Can a divorce be obtained when two people aren't suited to each other? I would like a chance of finding some happiness in marriage, but I just don't suit my husband.

He wants to keep our marriage for a "good front" for our friends and business associates, while he makes love to other women and expects me to be a wife in name only.

K.F.

DEAR K.F.: If your husband makes love to other women, while treating you as a wife in name only, he has given you grounds for divorce on the score of infidelity and gross neglect of duty.

I believe that church law as well as secular law, in almost any jurisdiction, would interpret your situation as one which cries for remedy—a situation in which you are the victim of grave injustice and moral injury.

For guidance in clarifying your rights, talk with a Family Service Agency counselor; or a staff lawyer at your Local Legal Aid Bureau.

CAPE CANAVERAL, Fla. (AP) — A Polaris test vehicle burst apart with a brilliant splash of fire shortly after takeoff today.

The trim, Lockheed missile, about 35 feet long, roared up on what appeared to be a perfect takeoff at 10:36 a. m. It climbed vertically for 20 seconds. Then, just as it was about to level off, a violent explosion occurred and the rocket appeared to break in two.

The breakup that occurred was expected and the test appeared normal, the Navy announced.

Ford Says Union's Demand Is Costly

DETROIT (AP) — Henry Ford II, president of Ford Motor Co., said today the current demands of the United Auto Workers on the auto industry would raise new car costs more than \$300.

Ford, in a letter to Sen. Estes Kefauver (D-Tenn.), said the union demands on the auto industry "amount to more than 70 cents an hour, exclusive of profit sharing. The 70 cents an hour demand alone, if granted by us and our suppliers generally, would raise the cost of an automobile more than \$300. No automobile company could grant such a demand and expect to stay in business."

CAPE CANAVERAL, Fla. (AP) — A Polaris test vehicle burst apart with a brilliant splash of fire shortly after takeoff today.

The trim Lockheed missile, about 35 feet long, roared up on what appeared to be a perfect takeoff at 10:36 a. m.

It climbed vertically for 20 seconds. Then, just as it was about to level off, a violent explosion occurred and the rocket appeared to break in two.

The breakup that occurred was expected and the test appeared normal, the Navy announced.

Ford Says Union's Demand Is Costly

DETROIT (AP) — Henry Ford II, president of Ford Motor Co., said today the current demands of the United Auto Workers on the auto industry would raise new car costs more than \$300.

Ford, in a letter to Sen. Estes Kefauver (D-Tenn.), said the union demands on the auto industry "amount to more than 70 cents an hour, exclusive of profit sharing. The 70 cents an hour demand alone, if granted by us and our suppliers generally, would raise the cost of an automobile more than \$300. No automobile company could grant such a demand and expect to stay in business."

God's Provision for Worship

MOSES TELLS HIS PEOPLE OF THE LORD'S INSTRUCTIONS FOR BUILDING HIS SANCTUARY

Scripture—Exodus 35-40.

By NEWMAN CAMPBELL

THIS LESSON is the story of the building of the sanctuary by the children of Israel. If the teacher, especially of the younger classes, can obtain a model of the tabernacle, or a picture of it, it would be helpful. Consult your book shops or, especially, religious book shops. A visit to a Jewish place of worship—with a member of its congregation to explain the service—would be helpful to the older classes. Moses received the instructions for the building of the sanctuary on Mt. Sinai, and gathered all the congregation of the children of Israel together, and said unto them, These are the words which the Lord hath commanded, that ye should do them.

The word sanctuary "comes from a Latin word meaning sacred or set apart, so though

commanded. The women brought their jewelry and spun with their own hands fine linen in blue, purple and scarlet.

Not only did the congregation bring gifts so that the sanctuary might be built, but every man who had a knowledge of the work to be done offered his services.

The description of the building and the furnishing of the sanctuary we have not space to relate here, but it is most interesting and should be read, at least in part, to the classes.

"And the Lord spake unto Moses, saying, On the first day of the first month shalt thou set up the tabernacle of the tent of the congregation. And thou shalt put therein the ark of the testimony, and cover the ark with the veil."

Then the Lord gave implicit instructions as to the order of the

we are not living in Old Testament times, we do worship in places that are made to remind us of the true character of worship and of the holiness of God."

Dr. Wilbur M. Smith. The work was to be done on six days of the week only, so that the Sabbath could be kept. "Take ye from among you an offering unto the Lord: who-soever is of a willing heart, let him bring it, an offering of the Lord: gold, and silver, and brass, and blue, and purple, and scarlet, and fine linen, and goats' hair, and rams' skins dyed red, and badgers' skins, and shittim wood."

The Jewish name for a valuable and durable wood, believed to be some kind of acacia, according to the encyclopedia. Many other offerings for the building and furnishing of the sanctuary were asked for, and the people responded enthusiastically. Both men and women brought their gifts as the Lord

rituals. Moses and Aaron and his sons went in and Aaron was anointed and sanctified to minister unto God in the priest's office.

All was done as the Lord commanded, and when all was finished, "a cloud covered the tent of the congregation, and the glory of the Lord filled the tabernacle."—Exodus 40:34.

The editor of Peloubet's Notes, Dr. Wilbur M. Smith, gives us a description of the tabernacle, which the teachers should read and describe to the class, giving a very simple description to the younger classes. This is important if no picture or model is available.

The lesson for all of us, in whatever church we worship, is to copy the enthusiasm and generosity of the children of Israel in the building of the tabernacle if our congregation is considering building a new church.

Retiring Ohio Solon Unhappy With Trend of Government

WASHINGTON (AP)—At 72, white haired Cliff Cleveland is taking a last look at his government before retiring this fall. He doesn't like a lot of the things he sees.

A veteran of nearly 20 years in the House, the Bryan, Ohio, Republican listed some of the things he dislikes in testimony made public this week by a House appropriations subcommittee.

They include: The St. Lawrence Seaway, the U. S. Information Agency (USIA), reciprocal trade, U. S. "adventure" in Africa, relief programs abroad, and "socialistic" plans to aid schools.

As a member of the appropriations subcommittee headed by Rep. John J. Rooney (D-NY), Cleveland has had a certain amount of say about controlling the money for some of those projects.

"I wish that I could feel better about it, but as I finish my 20 years in this Congress of the United States, I think that Mr. Rooney and myself—I never added it up—

The World Today

WASHINGTON (AP)—The stoning and spitting inflicted on Vice President Nixon in Peru Thursday was the climax to a series of unpleasant situations in every one of the five Latin-American countries he has visited.

No doubt the Soviet Union will have a propaganda field day with what's happened to him.

The antagonism he has encountered was perhaps in great measure Communist-inspired. But it would be too easy and comfortable to think the Reds did it all. Nixon himself said "there is a very considerable lack of understanding" in Latin America about United States policies and motives. Why? Perhaps a congressional investigation will attempt to get answers.

In all five countries he has visited, Nixon has received requests—direct or indirect—for more

American economic help. Nixon's whole Latin-American trip, and its events, raises two immediate questions:

1. Was the trip wise in the first place? Surely the State Department must have known there was some broad anti-American feeling in Latin America and there might be unpleasant episodes. Perhaps it misjudged how unpleasant they would be.

2. Is American policy and propaganda in the area a failure or so badly handled that, despite help from this country, resentment is growing? And, of course, there's the question: What can be done about it?

A short rundown on Nixon's trip shows what happened:

He arrived in Uruguay April 28. He got a 21-gun salute, shouts of praise, and jeers. Students from the National University shouted "Out with Nixon." They condemned him as a representative of "North American imperialism."

Uruguay, in an economic crisis, is dickering with the Soviet Union for trade. The trade of this small country—2½ million people—with the United States has dropped off.

Then he flew to Argentina to attend the inaugural of President Arturo Frondizi. He was so badly slowed up by traffic he arrived late for the ceremony and was jeered when he did arrive.

(The official receptions he got everywhere, of course, were friendly.)

He got a 21-gun salute in Paraguay but several students were arrested for crying "Long live liberty." This slogan was described as Communist by the military dictator of Paraguay, President Alfredo Stroessner.

Nixon was welcomed to Bolivia with a shower of confetti and pamphlets telling him to go home and proclaiming "death to the high cost of living imposed by the Yankees."

When Nixon got to Peru—where there's much unemployment and growing anti-Americanism—his reception was cool, and with jeers. The New York Times reported that one newspaper, anti-Communist

Industry Payroll Drops Sharply

WASHINGTON (AP)—The government reports employment in manufacturing industries dropped by 270,000 in April compared with March. The drop to 15,100,000 was described as considerably more than usual for the season.

The monthly report by the departments of Commerce and Labor added details to the April unemployment and employment totals which Secretary of Commerce Weeks announced April 29.

The report said the employment declines, as in other recent months, were sharpest in the durable goods industries.

Family Garage in Style

WASHINGTON (AP)—The family garage is back in style, says the Federal Housing Administration. More than 76 per cent of new homes bought last year with FHA mortgages had garages, up from 49 per cent seven years earlier.

Court Dates Penalty Point Law Sept. 22

COLUMBUS (AP)—Ohio's penalty point traffic law became effective last Sept. 22, not last June 22, the Ohio Supreme Court has ruled.

Motor vehicle officials say there are affected by the ruling about 100 cases in which drivers had their licenses revoked or suspended for compiling 12 traffic violation points in a two-year period. These are cases in which the points were assessed between June 22 and Sept. 22.

Obviously, those license revocations can now be thrown out. The ruling, however, would not affect drivers who accumulated points after Sept. 22.

Wednesday's unanimous decision by the high court upheld Hamilton County courts which ruled that the effective date was Sept. 22 because the Ohio Senate failed to pass the point system law as an emergency measure. That would have made it effective June 22.

The appeal was in an application by George C. Braden, state motor vehicle registrar, for a year's suspension of the driver's license of Fred Youngblood of Lockland, after 12 points had been totaled against him.

Youngblood contended his first points were assessed between last June 22 and Sept. 22, and therefore should not have been counted.

MOSES TELLS HIS PEOPLE OF THE LORD'S INSTRUCTIONS FOR BUILDING HIS SANCTUARY

Scripture—Exodus 35-40.

By NEWMAN CAMPBELL

THIS LESSON is the story of the building of the sanctuary by the children of Israel. If the teacher, especially of the younger classes, can obtain a model of the tabernacle, or a picture of it, it would be helpful. Consult your book shops or, especially, religious book shops. A visit to a Jewish place of worship—with a member of its congregation to explain the service—would be helpful to the older classes.

Moses received the instructions for the building of the sanctuary on Mt. Sinai. He gathered all the congregation of the children of Israel together, and said unto them, These are the words which the Lord hath commanded, that ye should do them.

The word sanctuary "comes from a Latin word meaning sacred or set apart, so though

commanded. The women brought their jewelry and spun with their own hands fine linens in blue, purple and scarlet.

Not only did the congregation bring gifts so that the sanctuary might be built, but every man who had a knowledge of the work to be done offered his services.

The description of the building and the furnishing of the sanctuary we have not space to relate here, but it is most interesting and should be read, at least in part, to the classes.

"And the Lord spake unto Moses, saying, On the first day of the first month shalt thou set up the tabernacle of the tent of the congregation. And thou shalt put therein the ark of the testimony, and cover the ark with the veil."—Exodus 40:1-3.

Then the Lord gave implicit instructions as to the order of the

we are not living in Old Testament times, we do worship in places that are made to remind us of the true character of worship and of the holiness of God."

—Dr. Wilbur M. Smith.

The work was to be done on six days of the week only, so that the Sabbath could be kept. "Take ye from among you an offering unto the Lord: whosoever is of a willing heart, let him bring it, an offering of the Lord: gold, and silver, and brass, and blue, and purple, and scarlet, and fine linen, and goats' hair, and rams' skins dyed red, and badgers' skins, and shittim wood"—the Jewish name for a valuable and durable wood, believed to be some kind of acacia, according to the encyclopedia.

Many other offerings for the building and furnishing of the sanctuary were asked for, and the people responded enthusiastically. Both men and women brought their gifts as the Lord

rituals. Moses and Aaron and his sons went in and Aaron was anointed and sanctified to minister unto God in the priest's office.

All was done as the Lord commanded, and when all was finished, "a cloud covered the tent of the congregation, and the glory of the Lord filled the tabernacle."—Exodus 40:34.

The editor of Peloubet's Notes, Dr. Wilbur M. Smith, gives us a description of the tabernacle, which the teachers should read and describe to the class, giving a very simple description to the younger classes. This is important if no picture or model is available.

The lesson for all of us, in whatever church we worship, is to copy the enthusiasm and generosity of the children of Israel in the building of the tabernacle if our congregation is considering building a new church.

Retiring Ohio Solon Unhappy With Trend of Government

WASHINGTON (AP)—At 72, white haired Cliff Clevenger is taking a last look at his government before retiring this fall. He doesn't like a lot of the things he sees.

A veteran of nearly 20 years in the House, the Bryan, Ohio, Republican listed some of the things he dislikes in testimony made public this week by a House appropriations subcommittee.

They include: The St. Lawrence Seaway, the U. S. Information Agency (USIA), reciprocal trade, U. S. "adventure" in Africa, relief programs abroad, and "socialistic" plans to aid schools.

As a member of the appropriations subcommittee headed by Rep. John J. Rooney (D-NY), Clevenger has had a certain amount of say about controlling the money for some of those projects.

"I wish that I could feel better about it, but as I finish my 20 years in this Congress of the United States, I think that Mr. Rooney and myself—I never added it up—

The World Today

WASHINGTON (AP)—The stoning and spitting inflicted on Vice President Nixon in Peru Thursday was the climax to a series of unpleasant situations in every one of the five Latin-American countries he has visited.

No doubt the Soviet Union will have a propaganda field day with what's happened to him.

The antagonism he has encountered was perhaps in great measure Communist-inspired. But it would be too easy and comfortable to think the Reds did it all.

Nixon himself said "there is a very considerable lack of understanding" in Latin America about United States policies and motives. Why? Perhaps a congressional investigation will attempt to get answers.

In all five countries he has visited, Nixon has received requests—direct or indirect—for more American economic help. Nixon's whole Latin-American trip, and its events, raises two immediate questions:

1. Was the trip wise in the first place? Surely the State Department must have known there was some broad anti-American feeling in Latin America and there might be unpleasant episodes. Perhaps it misjudged how unpleasant they would be.

2. Is American policy and propaganda in the area a failure or so badly handled that, despite help from this country, resentment is growing? And, of course, there's the question: What can be done about it?

A short rundown on Nixon's trip shows what happened:

He arrived in Uruguay April 28. He got a 21-gun salute, shouts of praise, and jeers. Students from the National University shouted "Out with Nixon." They condemned him as a representative of "North American imperialism."

Uruguay, in an economic crisis, is dickering with the Soviet Union for trade. The trade of this small country—2½ million people—with the United States has dropped off.

Then he flew to Argentina to attend the inaugural of President Arturo Frondizi. He was so badly slowed up by traffic he arrived late for the ceremony and was jeered when he did arrive.

(The official receptions he got everywhere, of course, were friendly.)

He got a 21-gun salute in Paraguay but several students were arrested for crying "Long live liberty." This slogan was described as Communist by the military dictator of Paraguay, President Alfredo Stroessner.

Nixon was welcomed to Bolivia with a shower of confetti and pamphlets telling him to go home and proclaiming "death to the high cost of living imposed by the Yankees."

When Nixon got to Peru—where there's much unemployment and growing anti-Americanism—his reception was cool, and with jeers.

The New York Times reported that one newspaper, anti-Communist but leftist, declared editorially that while opposition to Nixon was fomented by a Communist fifth column, much of the Peruvian resentment was due to the "frustrations and bitterness that the United States created among genuinely democratic groups friendly to the U. S. people, such as ourselves."

Some of the causes for the anti-Americanism listed by the paper: alleged U. S. support for Latin-American dictatorships and economic policies injurious to the region.

There had been widespread criticism of this country recently in Peru, Mexico and Bolivia after the U. S. Tariff Commission proposed higher tariffs on lead and zinc, major exports of those countries.

The climax to the disastrous trip was reached when Nixon—and his party—sought to enter San Marcos University, where he wanted to talk with the students. He was greeted with stones, fruit and spit. A floral American flag was torn up.

Nixon was followed along the streets by jeering crowds. This, he said, was a day of infamy. It's also a day which didn't make the United States look good.

Industry Payroll Drops Sharply

WASHINGTON (AP)—The government reports employment in manufacturing industries dropped by 270,000 in April compared with March. The drop to 15,100,000 was described as considerably more than usual for the season.

The monthly report by the departments of Commerce and Labor added details to the April unemployment and employment totals which Secretary of Commerce Weeks announced April 29.

The report said the employment declines, as in other recent months, were sharpest in the durable goods industries.

Family Garage in Style

WASHINGTON (AP)—The family garage is back in style, says the Federal Housing Administration.

More than 76 per cent of new homes bought last year with FHA mortgages had garages, up from 49 per cent seven years earlier.

Braves Hoping Redleg Cousins To Help Again

Milwaukee Clings To NL Lead, To Send 4-0 Spahn to Mound

By THE ASSOCIATED PRESS
The world champion Milwaukee Braves, leading the National League for only the third time this season, see what they can do about staying there tonight against Cincinnati—the club that put 'em in first place for keeps last season.

The Braves, who haven't held first for two consecutive days thus far, were handed a percentage-point lead by Cincinnati Thursday. The Redlegs rammed home eight runs in the ninth for a 10-8 victory over the Cubs in the only game scheduled.

A 5-4 victory over the Redlegs at Milwaukee hoisted the Braves into the National League lead on Aug. 6 last season.

Warren Spahn (4-0) was the winner then and he's Milwaukee's starter tonight.

Bob Purkey (3-0), the only pitcher to shut out the Braves this season, is the Redleg choice.

In the stage play "Damn Yankees" 1958 was the year the Washington Senators, with the help of the Devil, beat the New York Yankees for the American League pennant.

Well, this is 1958 and you can give the Senators a double take. They've been raising the Devil so far, haven't lost to the Yankees yet and are in second place, half a game behind the Bombers going into tonight's game at Yankee Stadium.

Pete Ramos, a 23-year-old right-hander who last season gained his only two victories over the Yankees in eight lifetime decisions, takes a 2-0 record to the mound tonight for the Senators. The Yankees plan to start Bob Turley (3-0).

The Senators closed in on the Yankees with a 4-1 victory over Detroit Thursday. Rain shelved the only other game scheduled, Cleveland at New York.

The Senators, who beat the Yankees 5-4 in 10 innings in their only meeting of the season, were retired in order for 41-3 innings by right-hander Bob Shaw. Then three successive hits, singles by Jim Lemon and Norm Zaichin and a double by Rocky Bridges, made it 2-0 in the fifth. Three hits and Clint Courtney's sacrifice fly counted two more in the sixth and Shaw was 0-2.

Young Ralph Lument won his first in the majors, with Dick Hyde's fine relief help. The 21-year-old lefty gave up four hits and struck out three, but walked six—two of them ahead of Reno Bertoia's RBI single in the sixth. Hyde allowed three hits in his 3 2/3 innings.

The rest of today's schedule sends third-place Kansas City to Detroit, Cleveland to Chicago and Boston to Baltimore.

Jet Official Gives Rotary Club Rundown

A Columbus Jets official yesterday wouldn't predict that the International League ball club will win the pennant.

However, Avery Robertson, assistant general manager of the club, did predict a first division finish.

Robertson spoke to the Circleville Rotary Club at its regular noon luncheon meeting in the Elks Home.

Robertson explained the non-profit nature of the Columbus Youth Foundation which eventually will own Jets Stadium. He also explained the Jets' affiliation with the Pittsburgh Pirate chain.

The Jet official then reviewed the qualifications of the club's personnel, covering every position.

ROBERTSON SAID that he expects the Pirates to send down four players at the May 15 player cut deadline. Among the possibilities are infielders John O'Brien and Gene Freese, outfielders John Powers and Jim Pendleton and pitchers Red Whitt, Benny Daniels and a youngster named Radon.

He declared that pitching is the Jets strong point, with such stellar performers as Chollie Naranjo, Joe Gibbon, Art Swanson and Whammy Douglas. He also stated that first baseman Tony Barterome is "the best finding initial sacker in baseball—bar none."

Ashville Athletes Win Track Crown

The Ashville Broncos Boys and Girls captured the 1958 Pickaway County track title yesterday afternoon at the fairgrounds.

The Ashville boys scored 54 points and the girls racked up 40 points. Following the Ashville boys were Sallcreek with 39 1/2 points; Williamsport, 29 1/4; Walnut, 25 1/4; Darby, 21 1/4; Scioto 20 and Pickaway, 12.

Following the Broncos Girls were Williamsport and Walnut tied with 22 points; Darby and Pickaway tied with 5 points, and Sallcreek with 2.

Williamsport's Max Reeser and Ashville's Bill Hollenbeck were the meet's only double winners. Rees-

Old Smoky Wins Screwy Tilt for Reds

MILWAUKEE (AP)—It's a known fact that the Cincinnati Redlegs have been dangling catcher Smoky Burgess as trading bait for a couple of seasons. But if Redleg General Manager Gabe Paul has a deal ready, it might be wise for him not to announce it for at least a few days.

If he does, Paul might have to pack his suitcase and go along with Burgess, as far as fans back in Cincinnati are concerned.

Old Smoky came up off the bench as a pinch hitter in the ninth inning at Chicago Thursday, picked on the first pitch thrown him and blasted it out of the park for a three-run homer that brought the Redlegs a come-from-behind 10-8 victory over Chicago's Cubs.

The wallop climaxed an eight-run rally by the Redlegs in the final inning. They had gone into the ninth on the short end of an 8-2 count. Then two walks, an error, five singles and Burgess' blast wrecked the Cubs.

But even that didn't end the weird aspects of the long game.

The Redlegs had used up so many players as pinch hitters and pinch runners that when they took the field in the last of the ninth they had outfielders playing third base, second base, the third baseman playing shortstop and a first baseman playing left field.

Luckily, Hal Jeffcoat, the fifth Redleg pitcher, didn't have to depend on that makeshift infield to get the Cubs out. Two batters sent flies to the outfield and he struck out the other.

Lopes Is Favored To Whip Ortiz

HOLLYWOOD (AP)—Lightweight Joey Lopes of Sacramento, Calif., goes into the ring at the Hollywood Legion Stadium tonight a slight favorite to whip Carlos Ortiz of New York and snap the Easterner's string of 26 victories.

The 10-round match will be televised by the National Broadcasting Co., starting at 9 p. m. EST. Both the 21-year-old Ortiz, a blond from Puerto Rico, and his 27-year-old opponent would like to meet champion Joe Brown in a title or non-title fight.

Round Table Nearing Millionaire Class

AGUA CALIENTE, Mexico (AP)—Round Table gets a chance to join the select circle of equine millionaires Sunday. The Travis M. Kerr thoroughbred races against eight rivals in the \$50,000 added Caliente Handicap.

If he wins, Round Table will collect at least \$30,000, which would push his earnings, now \$973,964, over the million mark. Only two other horses, Citation and Nashua, are turf millionaires.

Leipsic Athlete Gets Top Amherst Honor

AMHERST, Mass. (AP)—Bill Warren, basketball and track standout for three years at Amherst, has been awarded the Sphinx Spoon, one of the college's highest athletic honors.

Warren, senior from Leipsic, Ohio, set a record of 1,299 points during his varsity basketball career.

er sped to victory in the 440 and 880-yard dashes. Holtbeck swept to victory in the pole vault, where he set a county record with leap of 11 feet. The previous record was set in 1934 by Rouff of Darby with a leap of 10' 9".

IN the girls events, Sharf of Williamsport tied a meet record in the 60-yard dash with a time of 0:05.1.

In the half mile relay there was no question as to the winner when Walnut's Smith broke at the crack of the starting gun and sped to a 35 yard lead as he handed the baton to teammate Linden Bell Sloan and Reigel, who ran the 220 yards were never headed.

Scioto's Dickie Melvin, a little man with a lot of heart, had only leaped the broad jump in one previous meet at Williamsport. Yesterday he outdistanced all opponents with his 19'2" jump. According to coach Joe Corbett, Melvin had never leaped more than 15'.

Williamsport's Reeser was pushed throughout the 440-yard run by Ashville's Bob Hoover. Crossing the finish line Hoover made a desperation leap to the wire but fell about a yard short of victory.

Circleville Awaits Switchback of Top Pacer to Trot Rank

CIRCLEVILLE — Local harness racing fans are awaiting the showing of a well-heeled pacer which is being turned back into a trotter.

The showing will come at Pickaway Fairgrounds Sunday afternoon during the annual Harness Matinee sponsored by the local Junior Chamber of Commerce.

The switchback from pacer to trotter will come in the fifth of six events on the afternoon card. It is the Classified Trot. And the entry slated to draw all eyes is Steamtrain Demon, owned and driven by George W. VanCamp of Circleville.

The Demon, a 4-year-old, raced as a trotter in 1955, winning \$562. It was that year that the Demon, by De m o n Hanover-Conchita, made his debut at this same Matinee. Entered then as a trotter, he paced a storm free-legged, was disqualified in his debut.

In 1956, the Demon was a pacer and won \$16,173. In 1957, he paced again and pocketed \$27,739.

But this year, he's listed as a "green" trotter.

Other events on Sunday's Matinee are a 2-year-old Pace, three classified paces and a second classified trot.

Benefit Planned As Aid to Stokes

NEW YORK (AP)—Teams of the National Basketball Assn. will play a special doubleheader before next season for benefit of the stricken Cincinnati Royals' star, Maurice Stokes.

No definite date has been set for the benefit twin-bill. St. Louis, the division champion, will meet Boston in the first game. Cincinnati and Minneapolis also clash. Stokes fell ill with sleeping sickness two months ago. He still is in a semi-coma.

Adkin's Two Hitter Halts McClain, 4-0

Circleville High School pitcher Joe Adkin's string of consecutive scoreless innings reached 25 1-3 yesterday as he and his Tiger mates shutout Greenfield, 4-0.

Adkin's pushed his consecutive hitless innings to 17 before Greenfield catcher Dick Craft singled through the box with one out in the sixth.

The junior righthander, who combines a nice fast ball with some sharp breaking curves, started his no-hit string with a five-inning hitless stint against Athens several weeks ago. Since that time he has done an excellent job in relief.

This was an important win for CHS because Greenfield was the closest team to the locals in league standings and could have moved into a virtual tie for first if they had won.

CIRCLEVILLE now is 6-0 in league play with four games left. All other teams in the SCOL have lost at least two tests.

Yesterday was the Tigers' first time outside in the past seven days and as a result their hitting looked a little rusty. As evidence of this, they received 12 bases on balls from the two Greenfield pitchers, Grooms and Grim, and yet could

What if Whammy Had 2 Good Eyes?

By THE ASSOCIATED PRESS
"What would happen if Whammy Douglas had two good eyes?" someone asked today after the 23-year-old right-hander performed yeoman duty in pitching Columbus to a doubleheader victory over the Miami Marlins in the International League Thursday night.

Douglas has only one eye, but the baseballs he threw acted like they had two. He shut out the Marlins on a four-hitter in the first game, 1-0, then came on in the ninth inning of the nightcap to stifle a Marlin rally and preserve a 9-7 Columbus win.

The Rochester Red Wings won a doubleheader from Buffalo 4-1, 9-2, while Richmond took both ends of a twin-bill from Havana 10-9, 10-7. Toronto defeated Montreal in the other game 4-2.

score only four times. They stranded 11 men on base, far their highest total this year.

We managed only four singles, two of them by Don Rowland, who was on base four times in all as he also drew two bases on balls. Rowland raised his batting average to .458 and is the Tigers' leading hitter.

Adkins was in fine form as he retired the first 10 Greenfield batters before giving up two bases on balls in the fourth. He retired the next two hitters, however, to get out of the inning safely.

Adkins got into hot water in both the fifth and sixth, with Circleville leading only 3-0 at the time.

In the fifth, after striking out the first two batters, Jot developed a case of wildness and walked three straight batters. With the bases loaded he struck out Sam Grooms to end the inning.

ADKINS had a no-hitter going with one out in the sixth, but Greenfield's leading hitter, Dick Craft, lined a single through the box. Craft then stole second.

Circleville's outstanding defensive play of the game came a moment later when Bob Grim lined out another single to center. Craft tried to score from second base, but Centerfielder Jim Woods fired the ball towards the plate. Adkins cut the throw off and tossed to Wright to nip Craft.

That ended the last Greenfield threat of the game as Adkins retired the side in order in the last inning.

Circleville scored twice in the first inning as a result of two bases on balls and a single by Harry Strawser.

Don Rowland and Cal Ellis opened the game by drawing walks and Hosler fanned for the first out. Rowland and Ellis moved up on a stolen base and a passed ball and then Tiger clean-up batter Harry Strawser lined a single to left that scored both.

The third Circleville run came in the second on some good base running by John Wright. Wright drew a walk, went to second when the

Braves Hoping Redleg Cousins To Help Again

Milwaukee Clings To NL Lead, To Send 4-0 Spahn to Mound

By THE ASSOCIATED PRESS

The world champion Milwaukee Braves, leading the National League for only the third time this season, see what they can do about staying there tonight against Cincinnati—the club that put 'em in first place for keeps last season.

The Braves, who haven't held first for two consecutive days thus far, were handed a percentage-point lead by Cincinnati Thursday. The Redlegs rammed home eight runs in the ninth for a 10-8 victory over the Cubs in the only game scheduled.

A 5-4 victory over the Redlegs at Milwaukee kept the Braves into the National League lead on Aug. 6 last season.

Warren Spahn (4-0) was the winner then and he's Milwaukee's starter tonight.

Bob Purkey (3-0), the only pitcher to shut out the Braves this season, is the Redleg choice.

In the stage play "Damn Yankees" 1958 was the year the Washington Senators, with the help of the Devil, beat the New York Yankees for the American League pennant.

Well, this is 1958 and you can give the Senators a double take. They've been raising the Devil so far, haven't lost to the Yankees yet and are in second place, half a game behind the Bombers going into tonight's game at Yankee Stadium.

Pete Ramos, a 23-year-old right-hander who last season gained his only two victories over the Yankees in eight lifetime decisions, takes a 2-0 record to the mound tonight for the Senators. The Yankees plan to start Bob Turley (3-0).

The Senators closed in on the Yankees with a 4-1 victory over Detroit Thursday. Rain shelved the only other game scheduled, Cleveland at New York.

The Senators, who beat the Yankees 5-4 in 10 innings in their only meeting of the season, were retired in order for 41-3 innings by right-hander Bob Shaw. Then three successive hits, singles by Jim Lemon and Norm Zauchin and a double by Rocky Bridges, made it 2-0 in the fifth. Three hits and Clint Courtney's sacrifice fly counted two more in the sixth and Shaw was 0-2.

Young Ralph Lumenti won his first in the majors, with Dick Hyde's fine relief help. The 21-year-old lefty gave up four hits and struck out three, but walked six—two of them ahead of Reno Bertoia's RBI single in the sixth. Hyde allowed three hits in his 3 2/3 innings.

The rest of today's schedule sends third-place Kansas City to Detroit, Cleveland to Chicago and Boston to Baltimore.

Jet Official Gives Rotary Club Rundown

A Columbus Jets official yesterday wouldn't predict that the International League ball club will win the pennant.

However, Avery Robertson, assistant general manager of the club, did predict a first division finish.

Robertson spoke to the Circleville Rotary Club at its regular noon luncheon meeting in the Elks Home.

Robertson explained the non-profit nature of the Columbus Youth Foundation which eventually will own Jets Stadium. He also explained the Jets' affiliation with the Pittsburgh Pirate chain.

The Jet official then reviewed the qualifications of the club's personnel, covering every position.

ROBERTSON SAID that he expects the Pirates to send down four players at the May 15 player cut deadline. Among the possibilities are infielders John O'Brien and Gene Freese, outfielders John Powers and Jim Pendleton and pitchers Red Whitt, Benny Daniels and a youngster named Radon.

He declared that pitching is the Jets strong point, with such stellar performers as Chollie Naranjo, Joe Gibson, Art Swanson and Whammy Douglas. He also stated that first baseman Tony Barterone is "the best fielding initial sacker in baseball—bar none."

Ashville Athletes Win Track Crown

The Ashville Broncos Boys and Girls captured the 1958 Pickaway County track title yesterday afternoon at the fairgrounds.

The Ashville boys scored 54 points and the girls racked up 40 points. Following the Ashville boys were Salt Creek with 39 1/2 points; Williamsport, 29 1/2; Walnut, 25 1/2; Darby, 21 1/2; Scioto 20 and Pickaway, 12.

Following the Broncos Girls were Williamsport and Walnut tied with 22 points; Darby and Pickaway tied with 5 points, and Salt Creek with 2.

Williamsport's Max Reeser and Ashville's Bill Hollenbeck were the meet's only double winners. Reeser

sped to victory in the 440 and 880-yard dashes. Hollenbeck swept to victory in the pole vault, where he set a county record with a leap of 11 feet. The previous record was set in 1934 by Ruff of Darby with a leap of 10' 9".

IN the girls events, Sharf of Williamsport tied a meet record in the 60-yard dash with a time of 0:05.1.

In the half mile relay there was no question as to the winner when Walnut's Smith broke at the crack of the starting gun and sped to a 35 yard lead as he handed the ball to teammate Linden Bell Sloan and Reigel, who ran the 220 yards were never headed.

Scioto's Dickie Melvin, a little man with a lot of heart, had only leaped the broad jump in one previous meet at Williamsport. Yesterday he outdistanced all opponents with his 19'2" jump. According to coach Joe Corbett, Melvin had never leaped more than 15'.

Williamsport's Reeser was pushed throughout the 440-yard run by Ashville's Bob Hoover. Crossing the finish line Hoover made a desperation leap to the wire but fell about a yard short of victory.

Circleville Awaits Switchback of Top Pacer to Trot Rank

CIRCLEVILLE — Local harness racing fans are awaiting the showing of a well-heeled pacer which is being turned back into a trotter.

The showing will come at Pickaway Fairgrounds Sunday afternoon during the annual Harness Matinee sponsored by the local Junior Chamber of Commerce.

The switchback from pacer to trotter will come in the fifth of six events on the afternoon card. It is the Classified Trot. And the entry slated to draw all eyes is Steamtrain Demon, owned and driven by George W. VanCamp of Circleville.

The Demon, a 4-year-old, raced as a trotter in 1955, winning \$362. It was that year that the Demon, by Deimon Hanover-Conchita, made his debut at this same Matinee. Entered then as a trotter, he paced a storm free-legged, was disqualified in his debut.

In 1956, the Demon was a pacer and won \$15,173. In 1957, he paced again and pocketed \$27,739.

But this year, he's listed as a "green" trotter.

Other events on Sunday's Matinee are a 2-year-old Pace, three classified paces and a second classified trot.

Benefit Planned As Aid to Stokes

NEW YORK — Teams of the National Basketball Assn. will play a special doubleheader before next season for benefit of the stricken Cincinnati Royals' star, Maurice Stokes.

No definite date has been set for the benefit twin-bill. St. Louis, the division champion, will meet Boston in the first game, Cincinnati and Minneapolis also clash.

Stokes fell ill with sleeping sickness two months ago. He still is in a semi-coma.

Adkin's Two Hitter Halts McClain, 4-0

Circleville High School pitcher Joe Adkin's string of consecutive scoreless innings reached 25 1-3 yesterday as he and his Tiger mates shutout Greenfield, 4-0.

Adkin's pushed his consecutive hitless innings to 17 before Greenfield catcher Dick Craft singled through the box with one out in the sixth.

The junior righthander, who combines a nice fast ball with some sharp breaking curves, started his no-hit string with a five-inning hitless stint against Athens several weeks ago. Since that time he has done an excellent job in relief.

This was an important win for CHS because Greenfield was the closest team to the locals in league standings and could have moved into a virtual tie for first if they had won.

CIRCLEVILLE now is 6-0 in league play with four games left. All other teams in the SCOL have lost at least two tests.

Yesterday was the Tigers' first time outside in the past seven days and as a result their hitting looked a little rusty. As evidence of this, they received 12 base on balls from the two Greenfield pitchers, Grooms and Grim, and yet could

score only four times. They stranded 11 men on base, far their highest total this year.

We managed only four singles, two of them by Don Rowland, who was on base four times in all as he also drew two bases on balls. Rowland raised his batting average to .458 and is the Tigers' lead-hitter.

Adkins was in fine form as he retired the first 10 Greenfield batters before giving up two bases on balls in the fourth. He retired the next two hitters, however, to get out of the inning safely.

Adkins got into hot water in both the fifth and sixth, with Circleville leading only 3-0 at the time.

In the fifth, after striking out the first two batters, Jot developed a case of wildness and walked three straight batters. With the bases loaded he struck out Sam Grooms to end the inning.

ADKINS had a no-hitter going with one out in the sixth, but Greenfield's leading hitter, Dick Craft, lined a single through the box. Craft then stole second.

Circleville's outstanding defensive play of the game came a moment later when Bob Grim lined out another single to center. Craft tried to score from second base, but Centerfielder Jim Woods fired the ball towards the plate. Adkins cut the throw off and tossed to Wright to nip Craft.

That ended the last Greenfield threat of the game as Adkins retired the side in order in the last inning.

Circleville scored twice in the first inning as a result of two bases on balls and a single by Harry Strawser.

Don Rowland and Cal Ellis opened the game by drawing walks and Hosler fanned for the first out. Rowland and Ellis moved up on a stolen base and a passed ball and then Tiger clean-up batter Harry Strawser lined a single to left that scored both.

The third Circleville run came in the second on some good base running by John Wright. Wright drew a walk, went to second when the

pitcher tried to pick him off first, moved to third on a passed ball, and scored when the catcher tried to pick him off third.

THE locals turned in a sharp fielding game by not committing an error. The game was moved up one day since the forecast for Friday called for rain.

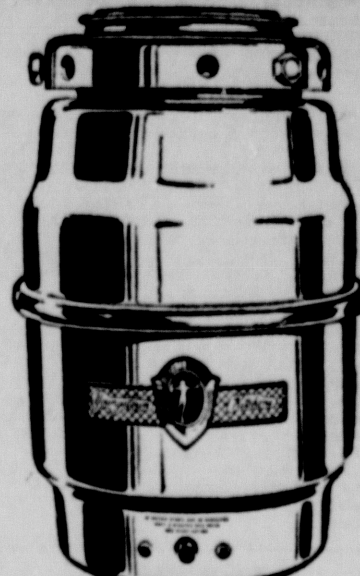

The Tigers play two games on the road next week and then return to play their final two games of the season at home. They are at Wilmington Tuesday and at Hillsboro Wednesday.

To Sell or Not To

Sell!

Now is the time to

decide.

There is still time to get a fair
price for your home. How long this
market will last, I can't say. It
is the "law of supply and demand"
that sets the prices... PLUS
man's financial ability.

In Real Estate it is "turn overs"
not "hold overs" that makes for
profit.

Hatfield can still sell your prop-
erty at a good market price.

Hatfield will not agree to get you a
GLORIOUS PRICE for your
property, but he will assure
you MARKET VALUE in a reason-
able time.

Robinson Sticking to Guns In Fuss with Walt O'Malley

NEW YORK (AP)—Jackie Robinson stuck to his guns in calling his old Dodger mates a "deteriorated team" today although a new light was thrown on the apparent reason for the blast—the award to Walter O'Malley for breaking the color line in baseball.

O'Malley, president of the Los Angeles Dodgers, declined comment.

Wesley Brazier, executive director of the Urban League, who made the award, said: "The award was presented to O'Malley for the entire Dodger organization and not to O'Malley individually for a single accomplishment."

It was this award which provoked a broadside from Robinson, the first Negro to play in the major leagues and now retired.

"That's preposterous," fumed Robinson, executive of a restaurant chain. "O'Malley had nothing to do with it. It was all Mr. Rickey's (Branch Rickey, former president of the Dodgers) idea and I don't believe O'Malley knew anything about it. In fact, he wasn't too keen about it in the first place."

In Pittsburgh, Rickey, chairman of the board of directors of the Pittsburgh Pirates, tried to calm the troubled waters.

"Jackie is right in that O'Malley had nothing to do with introducing Negroes into the major leagues," Rickey said, "but Walter wouldn't claim he did. He might have accepted the award to avoid embarrassment."

Robinson, who retired shortly after being sold to the Giants in December 1957, was bitter in his attack on the Dodgers' present president.

"The Dodgers have deteriorated," he said, "and O'Malley must take the responsibility for that. Our team — the team that won so many pennants — was a Rickey team."

"He (O'Malley) cashed in on the team that was built into an all-powerful unit by Branch Rickey. Now that these players apparently can no longer deliver, he finds himself in a situation where he doesn't have adequate replacements."

Bolt Grabs Lead At Hot Springs

HOT SPRINGS, Ark. (AP)—Tommy Bolt shot a 6-under par 66 Thursday to take the first lead in the Hot Springs Open Golf tournament.

The 39-year-old golfing veteran, whose name has long been associated with fits of temper, was a composed competitor as he racked up six birdies to grab a one-stroke lead over veteran Bob Rosburg of Palo Alto, Calif., and youngsters Gary Player of Johannesburg, South Africa, and Bert Weaver of Beaumont, Tex., who were in a 3-way jumble at 67.

Bourbon Open; So Is Golf Tourney

BARDSTOWN, Ky. (AP)—The Bourbon Open, with golfers ranging from par-busters to hundred-shooters, opens here today.

Most of the first day action is serious as the professionals go after the \$500 first prize in the 18-hole tourney at the Old Kentucky Home Country Club.

The tournament usually draws some fine golfers. But it has its share of duffers, too.

One says the Bourbon Open is the only time he plays golf. Another doesn't even bother to bring his clubs.

The gala event lasts three days — including cocktail parties, a dance and some golf.

County Educators To Study Puzzling Case of Principal

DAYTON (AP)—The puzzling case of Harley Haskins will be tossed into the lap of the Montgomery County Board of Education today.

Haskins, 57-year-old principal of Grafton-Kennedy Elementary School in nearby Northridge, was welcomed by a shouting, good-natured crowd estimated at 1,000 when he returned to his job Wednesday morning after an absence of two weeks.

Haskins had pleaded guilty the previous afternoon to unlawful abuse of two sixth-grade girls. But the welcome he got might have been for visiting royalty.

No one has come up with a really solid explanation of why a man who had just been fined \$1,000 on such charges should receive such a tribute.

Haskins' supporters—and there seem to be more of them than his critics—said he was the victim of a cruel injustice and offered the explanation that he pleaded guilty to save the cost of fighting the charges.

HASKINS' WIFE is also a teacher, in another school. They are childless.

But not friendless. At his court hearing Haskins presented petitions signed by 1,670 persons attesting that they believe him to be of unimpeachable character.

Herbert M. Jacobson, assistant

county prosecutor, said Thursday night he will turn over to the Board of Education a complete transcript of the hearing in which Juvenile Judge Frank W. Nicholas fined Haskins.

Jacobson contends the case involves moral turpitude. "He placed his hands on those girls and fondled them," Jacobson said.

M. Byron Morton, county school superintendent, said the board has no jurisdiction in the matter until the prosecutor hands over the transcript.

The board met Thursday night in a meeting that lasted only 10 minutes, but it was preceded by a 40-minute session from which reporters were barred.

Indication that the case may boil down to an effort to decide whether moral turpitude is involved came from C. R. Tarzinski, superintendent of Northridge schools.

Tarzinski said the Northridge school board acted in good faith by reinstating Haskins after he pleaded guilty. It had suspended him April 23, after the charges were filed.

HASKINS was originally charged with contributing to the delinquency of minors and pleaded innocent. When the prosecution changed the charges to unlawful abuse, he changed his plea.

Tarzinski said the Northridge board had been assured by Herbert M. Eichenbary, Haskins' attorney, that the amended charges did not involve moral turpitude.

Jacobson said eight of 10 girls from the school have made similar complaints against Haskins. He said the parents of the girls conferred with an attorney Thursday, then decided to defer further action until the county and Northridge school boards are finished.

Haskins said in his hearing before Judge Nicholas:

"I will admit that I put my arms around those girls—the back. That is a very friendly gesture. I have been doing that for years. But I deny that I have ever in any way had any evil thoughts of those girls in any way, shape or form."

ROTC Student Is Honored at OSU

Charles W. Brown, Route 2, Circleville, a student and member of the Reserve Officers Training Corps at Ohio State University was honored yesterday's annual cadet review held on the campus.

The local student received special recognition by being presented with a Reserve Officers' Assn. Certificate.

Sandusky To Get New Rocket Center

CLEVELAND (AP)—The National Advisory Committee for Aeronautics said today it will begin construction of a \$5,480,000 rocket research center soon near Sandusky. A 3,600-acre site was acquired two months ago from the Army's Plumbrook Ordnance Works.

Construction of the facility for study of long-range ballistic missile and space flight rocket systems will get underway soon and will be completed in about two years, the NACA said. It will require about 20 service personnel for maintenance and will employ about a score of scientists.

Jury Indicts Congressman

Rep. Powell Named In Tax Evasion Case

NEW YORK (AP)—Rep. Adam Clayton Powell Jr., Harlem Democrat and church leader, has been indicted for federal income tax evasion and for aiding in preparing a fraudulent tax return for his wife, pianist Hazel Scott.

A special federal grand jury, impaneled 16 months ago, Thursday returned a three-count indictment against the 49-year-old Powell, Negro member of Congress from New York since 1945.

Powell supported President Eisenhower and the GOP in the 1956 election, asserted over his displeasure with his own party's position on the racial segregation issue.

Shortly after Eisenhower's reelection, the jury was allowed to become dormant. Powell denied that this represented any deal with the administration.

The indictment was expected to bolster the position of six of seven Harlem district leaders who reportedly are out to drop Powell from the Democratic ticket this year. Powell has said he is going to run, regardless.

OF THE COUNTS against Powell, one charged tax evasion in a joint 1952 return with his wife. The government charged that they reported \$5,252, but that the true net was \$8,952 and that they owed taxes of \$1,663.

A second count states that Mrs. Scott, advised by her husband, set her net income for 1951 at \$3,815, but that her net was really \$9,101. A third count covers alleged violation of the federal criminal code against aiding and abetting the preparation of a fraudulent return for another person.

The three-count indictment carries a maximum penalty, if convicted, of 15 years in prison and \$30,000 in fines.

Staid Justices Are Guests, But Stage Stars Steal Show

WASHINGTON (AP)—The staid Supreme Court justices were guests of honor but nine Broadway musical comedy stars stole the show at the White House Thursday night.

They belted out show tunes in the formality of the East Ballroom.

President Eisenhower took special delight in a rendition of the torrid "Steam Heat," a song-and-dance routine from the show "Pajama Game."

The occasion was a formal state dinner for the court—an annual affair—followed by a musicale.

In all, a few more than 200 persons saw the star-studded performance—for which the cast left their Broadway show roles to understudies for the night.

This drew some criticism from Washington Post drama critic Richard L. Coe, who thought the public got a bad deal. He said the

featured players were advertised as appearing on Broadway when they actually were in Washington.

"Oh boy! How many people in a lifetime ever get an opportunity to play the White House?" was the answer of Harold S. Prince who, with Robert E. Griffith, had arranged the program. They are producers of "West Side Story" and they brought along their top young singers from the show, Carol Lawrence and Larry Kert.

Eddie Hodges, 11, who sang a number he does in "The Music Man", got some special attention from the President.

Eisenhower steered Eddie toward the food, but cautioned the youngster to stay away from the bubbly champagne the older guests were having. For Eddie, Eisenhower sent for some ginger ale.

Thelma Ritter, who did a number with Cameron Prud'Homme from their show "New Girl in Town," said she was thrilled but couldn't get used to playing with all the house lights on.

And Pat Stanley of "Blue Denim" who did the "Steam Heat" number with Gennaro and Frank Derbas of "Bells are Ringing", said it was much worse than an opening night in the theater. She was so nervous, she said she did not dare look at the President.

Sally Ann Howes, current star of "My Fair Lady" completed the cast for the show.

The dinner, with 61 guests, ended the 1958 White House season. It was one of six official state dinners on the social calendar.

Local Motorist Lands in Jail

A local man was fined \$100 and costs and ordered to jail for two days following arraignment in Circleville Municipal Court today.

Loren S. Boniphant, 27, of 682 E. Mound St., was fined \$10 and costs for failure to stop at a stop sign, and then received the \$100 fine and jail sentence for driving while his license was revoked.

George C. McGaskill, 21, Davison, Mich., was fined \$20 and costs for traveling 70 miles an hour in a 50-mile zone.

Chimp's Drawings Said 'Not Art'

BALTIMORE (AP)—A U. S. Customs appraiser, saying he just had to draw a line somewhere, classified a dozen abstracts by Congo, the chimpanzee from London, as not being art and therefore subject to import duty.

It's not that the pictures aren't good. In fact, J. Ross Prevost, the appraiser, said:

"If we didn't know they were produced by an animal we would have thought they were good modern art."

But, after all, Congo is a "sub-human animal with no rational mind or powers of imagination, and this does not meet our test for works of art."

Alert Project Is Successful

Circleville's participation in "Operation Alert" this week was labeled as being 75 per cent successful, according to Bernard Tait, local civil defense director.

The alert was held on a national basis. Local participation was signaled by sounding of the city's air raid siren.

Tait expressed thanks to those participating here, especially Mrs. Helen Strous at the Pickaway County Sheriff's Department and Rod List, local police radio operator.

Tait said the air raid siren here will continue to blow at noon on Saturdays. Unless notified otherwise by radio and newspaper, the sounding of the siren indicates an emergency, the director added.

He urged all local citizens to obey the warning sounds in case of an emergency.

Union Irked By Injunction In Road Fuss

MEDINA (AP)—An injunction against picketing a section of the Conneaut-Cincinnati Freeway project has brought a threat of a strike of construction projects by union laborers throughout a three-county area.

The threat was made by Thomas Arconti, secretary treasurer of Akron laborers Union Local 884.

"We are sick and tired of the indifference displayed by the governor, the National Labor Relations Board and the Ohio Department of Industrial Relations," Arconti said Thursday.

"The membership of the local is boiling mad. We can tie up the entire area in a protest strike."

The statements came after Common Pleas Judge W. E. Kellogg granted an injunction against picketing the Newell & Sons Co. project site near Lodi.

This was the fourth freeway project struck by the union this year over wage disputes. On each of the other three work was suspended for about a week before no-picketing orders were secured in court.

Arconti said all the union wants is "a hearing on the issues."

The strikes were called at the four projects after contractors cut wages to conform to a statewide agreement between Laborers Union District Council of Columbus and the Ohio Contractors Assn.
